Promed – products for your well-being!

Promed is a leading provider in European trade with innovative products for beauty care and personal well-being. Our users appreciate the simplicity of operation and the quality of products as well as our company's comprehensive service.

Why should you purchase with us?

We have dedicated ourselves to the health and well-being of your customers for over 30 years

Our company is certified according to DIN EN ISO 9001 and DIN EN ISO 13485

Our products are developed in cooperation with highly qualified experts

Many of our products are made here in Germany

We offer a large selection of prescribable medical devices

You will find an outstanding depth of product range with us

We market selectively with a concept

You can obtain free POS material on request

Our service is always there for you

Our declared goal is to satisfy you as customer

Professional equipment for skin, nail and foot care

We offer the latest technology and best service from one source.

Premium quality for long-lasting products

Our highly qualified staff is always there for you in case of questions.

As a leading manufacturer of technically matured and proven professional-cutters, Promed develop, research and design its devices in close cooperation with users and medical technology - engineers.

Our more than 30 years of experience allows us to add meaningful developments for you, which facilitate you to work faster and comfortable on the customers.

Promed grew as the first manufacturer for technical innovations such as ASC (Automatic Speed Control) or the proven OPC (Overload Protection Control).

Promed devices are regularly tested by recognized testing institutes and undergo a highest German and global safety standards. Our strengths couch to outstanding technical innovations unique in after-sales service. (only in Germany) We are represented at the following beauty trade fairs in Germany:

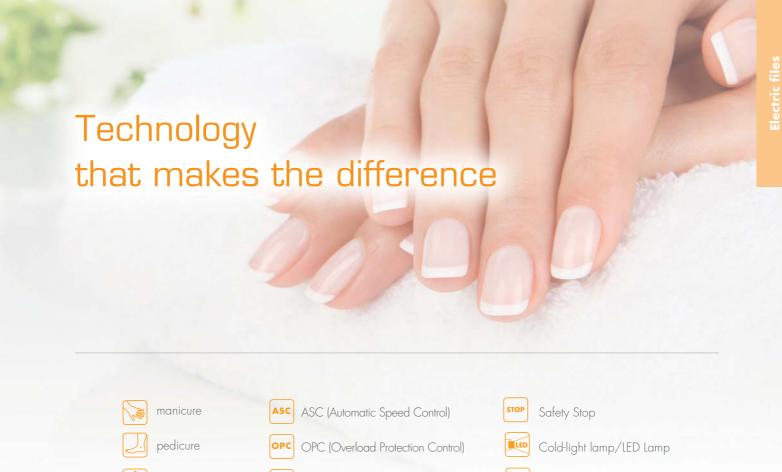

Promed – benifit yourself from our Know-How.

APE (Automatic Power Electronics)

APE - Automatic Power Electronics

artificial nails

For powerful, effective operation. The intelligent electronics supply the motor with more electricity even at low rpm.

ASC - Automatic Speed Control

The digital automatic speed control registers the loss of speed when pressure is exerted during filing and automatically compensates for this, allowing the unit to maintain its set power. You always have the full power at your disposal, letting you work even more quickly.

OPC - Overload Protection Control

The unique overload protection control automatically registers an overload of the respective motor and thus ensures that the device is not damaged. It is available for handpieces and, if applicable, for suction turbines.

Overload protection control for the handpiece motor:

In the event of a blockage or an overload of the handpiece, the handpiece and, if applicable, the suction turbine are switched off.

Overload protection control for the suction turbine:

If the suction turbine is not cooled adequately and the air temperature in the suction turbine housing exceeds a critical value, the suction turbine and the handpiece are switched off.

Safety Stop

If the device develops excessive speed and pressure during grinding, the electronics will respond by switching off the device. In this case, you must set the rotation switch of the device to zero (middle position) and start the device again.

Storage battery operation

Surfaces

Nail polish remover resistant foils with a stylish silver- metallic look.

Performance

Better performance is achieved for greater engine power by intelligent, microprocessor-controlled electronics.

All-in-One control

Large, handy and easy to use, this allows you to select speed and rotation direction simultaneously.

Handunits

A new development made from a lightweight-construction aluminum-stainless steel combination with precision bearing. Extra-powerful micro motors. Superb ergonomics and vibration-free operation. Non-metal hand units are made from special synthetic material.

Art. 204036 | EAN 40 43641 20052 7

the file - 4030-SX2 Love your health!

Modern file with vacuum device

Particularly low dust exposure thanks to direct suction on the abrasives. Perfect for nail design and foot care.

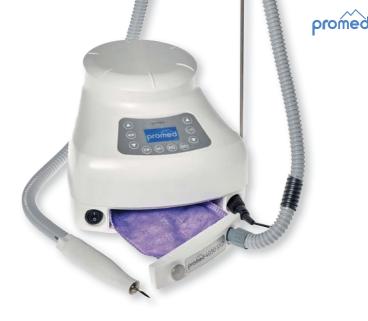

- Continuously adjustable up to 30.000 rpm (clockwise/anti-clockwise rotation)
- 3 memory buttons for individuelle speed
- Display indicating the required replacement of the filter bag
- Temperature-related safety switch-off
- Powerful suction capacity (continuously adjustable 350 watts turbine), very low-noise
- Flexible suction hose inkl. suspension

- Featherweight ergonomic handpiece (95 g) with standby switch
- Incl. 5+1 filter bags (14x18 cm), easy to change, tear-resistant
- Incl. handpiece holder
- Optional: foot pedal (see accessories on p. 170)

Dimensions: (W x H x D) 225 x 170 x 230 mm - Weight: approx. 2.6 kg - Supply voltage: 230 VAC/50 Hz, 350 VA (also available as 115 VAC/60 Hz, 350 VA) - Turbine: 350 watts - Noise emission: 62 dB A, speed: up to 30.000 rpm

Vacuum performance and number of revolutions

WORKING IN A HEALTH-CONSCIOUS MANNER

Filter bag 5x (white) + 1x(purple) in the device

Handpiece holder

Cleaning tool for the collet

ACCESSORIES

Foot switch (on/off) or foot pedal (swell)

Art. 205040 | EAN 40 43641 20024 4

the file - 5040 SX

Professional heavy duty spraying unit for foot care in wet technique

All types of filing work in the foot care.

Nail and cornea treatment.

- Control via keyboard
- Powerful micro pump for fine spray (adjustable)
- Handpiece max. 40.000 rpm. (Clockwise-/anti clockwise run)
- Ergonomic handpiece with integrated spray appliance
- Strong engine power at low speed
- Overload protection for the handpiece engine

- Stand-by buttons for all functions
- Water containers (410 ml) easily refillable through a plug-in system
- Illuminated water container
- Optional: Foot pedal (on/off) and electronic rocker pedal (see accessories on p. 170)

TECHNICAL DATA

Power supply: 230 VAC, 50 Hz, $105\,W\cdot207\times163\times245$ mm (L x B x H) - Pump capacity: 550 mbar; 6 ml/min - Weight: Handpiece 112 g, total unit approx. 3.2 kg - Optional: 115 VAC, 60 Hz

Art. 202025 | EAN 40 43641 20053 4

the file - 2020

Latest file generation for continuous operation

For professional treatment in continuous operation.

- Rotational speed is infinitely variable up to 20.000 rpm
- Ergonomic, powerful, vibration-less stainless steel handpiece (160 g) especially for pedicure
- Professional rotating collet
- 5 LEDs for rotational speed indicator
- 1 LED for foot pedal indicator
- Safety Stop
- ASC (Automatic speed control)

- All-in-One regulator
- Decorated with crystals from Swarovski®
- Foot pedal optionally available (on/off) (see accessories on p. 170)

TECHNICAL DATA

Rotational speed: infinitely variable up to 20.000 rpm - Power supply: 100 - 240 VAC, 50/60 Hz, 800 mA; Sec. 24 VDC, 1.5 A · Weight: 450 g · Weight of handpiece: 160 g · Dimensions: 130 x 200 x 100 mm (D x W x H)

Art. 201030 | EAN 40 43641 20036 7

the file - 1030

Latest generation of file for professional nail design

For a professional treatment of natural and artificial nails as well as nail design in continuous operation.

- Ergonomic, powerful, vibration-free stainless steel handpiece (160 g)
- Professional rotating collet
- 5 LEDs for rotational speed indicator
- 1 LED for foot pedal indicator
- ASC (Automatic speed control)

Safety Stop

- All-in-One regulator
- Decorated with crystals from Swarovski®
- Foot pedal optionally available (on/off) (see p. 170)

Rotational speed: infinitely variable up to 30,000 rpm - Power supply: 100 - 240 VAC, 50/60 Hz, 800 mA; Sec. 24 VDC, $1.5~\text{A} \cdot \text{Weight}$: $450~\text{g} \cdot \text{Weight}$ of handpiece: $160~\text{g} \cdot \text{Dimensions}$: 130~x 200~x 100~mm (D x W x H)

the file - 620

The entry-level device for ambitious nail design

> Is also well suited for finger and foot nail, no matter natural, gel or acrylic. You may also remove hard skin and callus easily.

- Handpiece in purple-glitter look (75 g)
- Automatic quick release clamp for standard bits (Shaft ø 2.332 - 2.350 mm)
- Support for the handpiece on the unit
- All-in-One regulator (20.000 rpm.; clockwise/ anti-clockwise; On/Off)

- Decorated with crystals from Swarovski®
- Safety-Stop (Stops at overloading)
- Speed display
- Lightest device on the market!

Power supply: 100 - 240 VAC, 50 / 60 Hz, 800 mA; Sec. 24 VDC, 1.5 A \cdot Energy consumption with zero load: 0.27 W - Rotation: 20.000 rpm. - Measurements: approx. 110 x 90 x 80 mm (L x B x H) -Weight: Handpiece 75 g

Art. 330030 | EAN 40 43641 33014 9

UV-LED Lampe "All-In"* UV-LED lamp for hardening all materials

> incl. 4x 9 Watt UV-LED lamp tubes (easy to replace due to the removable bottom plate)

for base/colour/gloss gels, UV polishes, 3-phase gels, acryl, shellac and much more.

- Approx. 10.000-hour long-life high-power LEDs without any annoying changing of lamps
- 3-step timer (90 s /120 s /30 min continuous operation function)
- Energy-saving function (auto-off after 30 min)
- Removable bottom parts; also suitable for curing foot nails
- 360° reflective surface for smooth curing processes
- 4 anti-slip rubber feet for a stable position
- Suitable for all materials

Device type: UV-LED lamp \cdot Power supply: 240 VAC, 50 Hz, 36 W \cdot Operating times: 90 s/120 s/30 min - Bulb base G23 \cdot Bulb wave length: λ = 365 \cdot 405 nm \cdot 9.1x8.7x3.9 inches / 230x220x100 mm (txWxH) \cdot Weight: 3.35 lb/1.52 kg

UVL-36 S UV light for curing gel and acrylic

- Professional nail design for the home
- Ideal for curing gel and acrylic
- 360 degree reflection for even curing
- Easy operation thanks to a 4-stage time
 (90 s / 120 s / 30 min / continuous operation)
- Removable base for easy replacement of the light
- 4 slip-proof rubber feet for stable standing
- See page 171 for accessories

TECHNICAL DATA

Dimensions: (L x W x H) approx. 253 x 221 x 113 mm · Weight: approx. 1.04 kg · Power supply: 230 VAC, 50 Hz, 36 W · Operating periods: 90 s / 120 s / 30 min / infinite · Light socket G23 · Wavelength of the lamps: λ = 365 nm

Art. 330010 (white) | EAN 40 43641 33001 9* **Art. 330015 (pink)** | EAN 40 43641 33008 8*

UVL-36*

UV lamp for curing gel and acrylic

Incl. 4x UV luminaries (easy to replace due to the removable bottom plate)

- Easy to use application, thanks to 3-speed timer switch (90 s / 120 s / 30 min)
- Removable bottom part for easy lamp replacement

- 360° silver coating for uniform curing
- 4 anti-slip rubber feet for solid state

TECHNICAL DATA

Measurements: (L x B x H) 230x220x100 mm - Weight: approx. 1.52 kg - Power supply: 240 VAC, 50 Hz; 36 W; - Operating fime: 90 s / 120 s / 30 min - Lamp holder G23 - Wavelengths of the lamps: λ = 365 nm

nailfan

Unit for removing harmful fine dust

Tested dust protection class "L" -DIN EN ISO 60335-2-69

promed

product film:

- The Promed nailfan stands out due to its tested dust class "L", quality, easy handling and special performance
- Ergonomic design for non-tiring work
 for you and your clients
- Removable antistatic padded arm rest
- No cold fingers despite powerful suction
- Very large dust collection area of up to 20 cm
- Low-noise and low power consumption

- Large (11 x 19 cm), easy to change fine dust particle filter (washable!)
- No filter bags required
- Separate dust drawer
- Antistatic housing
- Incl. second reusable filter, towel for catching dust
- Accessories: see p. 170

TECHNICAL DATA

Main unit dimensions: (B x H x T) 308 x 140 x 340 mm \cdot Weight: ca. 1.8 kg \cdot Power supply: 230 VAC, 50 Hz Fan: Power rating: 18/22 W, Noise level: 46 dbA \cdot Max. air flow 180 m³/h

Clean, dust-free zone!

CONVENIENT FOR YOU AND YOUR CUSTOMERS AT WORK

- Makes the workplace a dust-free zone
- Reduces the unnecessary health risk of breathing in particulate matter to a minimum
- Easy to use and easy to clean
- High-performance and quiet
- Has an easy to change and easy to clean fine particle filter

Particulate matter is an invisible but significant health risk in the nail salon – for the nail designer and the customer. The dust is produced while shaping, filing and polishing natural and artificial nails. The particles released are microscopically small, can settle on the mucous membranes, eyes and skin, and result in reactions such as allergies, headaches or even silicosis.

The most effective action is to avoid the dust being dispersed throughout the room. This can easily be achieved through vacuuming of the dust in the moment it is generated.

With a practical dust extraction system in your studio!

Art. 224010 | EAN 40 40 43 641 22003

LTM-30 LED table magnifying lamp

- for working comfortably

- Compact LED table magnifying lamp for your workplace, your workshop, for reading, and much more
- 30 individual LED bulbs ensure excellent light output
- 175 % magnification while working (3 dpt)
- High quality 4 inch lens with protective cover
- Easy adjustment of the lens position and height
- Swivelling head and arm joints (multidimensional)
- Ergonomic design and stable base

- Extremely long-life LEDs (high-quality long-life)
- LEDs are much more robust than conventional neon
- Cool shadowless lighting for bright, comfortable working
- Lens size: 4-Inch lens (Ø 10.2 cm)
- Colour temperature: 6 200 K (neutral white)
- Dimensions (ØxWxH): 16x18x39 mm

Art. 330110 | EAN 40 43641 33017 0

LTL-749 LED table lamp

- for maximum flexibility

- Classy and stylish design
- Very light and even illumination
- No tired eyes, relaxed working
- Ideal for your workplace, on any table, in the bedroom or at school
- 3-level dimming of brightness at the touch of a button
- Multidimensional 3-axis adjustment
- LED bar adjustable by 360°

- High-quality long-life LED tube: appr. 40.000 hours
- Energy-saving compared to conventional lamps
- LED lamp with integrated glare protection for your eyes
- Frame made of high-quality aluminium
- Anti-slip base
- Dimensions of the LED bar: approx. 33 cm long
- Brightness: approx. 5.000 K (colour temperature)

promed

Art. 330210 | EAN 40 43641 33004 0

UC-50 Ultra sonic device

- Cleans instruments, grinding tools, genuine jewellery, watches, CD/DVDs, third set of teeth etc. with ultrasonic high-frequency vibrations
- The UC-50 switches off automatically after the timer expires
- Very stable and quiet

- Illuminated LCD display; timer function (5 timer settings)
- Suitable for tap water
- Suitable for Promed Pure-ID (improves cleaning and disinfecting)
- Accessories: basket, bit holder, CD holder, watch holder

Art. 330810 | EAN 40 43641 33005 7

Pure-ID Desinfection for instruments (concentrate)

- Highly effective, aldehyde-free concentrate for the disinfection/cleaning of instruments and sensitive rotary instruments
- PURE ID is gentle on the material and has a pleasant fragrance
- Composition: 100 g: 18g alkyl-benzyl-dimethyl-ammonium chloride 50 %, auxiliary substances in aqueous solution
- Spectrum of activity: Bactericidal, tuberculocidal, fungicidal, virucidal against enveloped viruses (enveloped viruses such as vaccinia virus including HBV, HCV and HIV as well as not enveloped viruses such as adenoviruses,
- On the list of VAH. Tested acc. EN 13727, EN 13624, EN 14561, EN 14562, EN 14476

- Aldehyde-free ready-to-use solution for the rapid disinfection (spray and wipe disinfection) and cleaning of sensitive surfaces)
- PURE FD dries off quickly
- Composition: 100 g contain 17 g of 1-propanol, 0.25 g of 50 % alkyl-benzyl-dimethyl-ammonium chloride, auxiliary substances and water
- Spectrum of activity: Bactericidal (incl. Tb and EHEC), fungicidal, limited virucidal effectiveness (enveloped viruses like vaccine-viruses incl. HBV, HCV, HIV, noroviruses)
- On the list of VAH. Tested in accordance with EN 14348 and EN 14476

620 deluxe (manicure/pedicure)

Incl. 43 accessories

The lightestöö device on the store!

"The profi class quality at home"

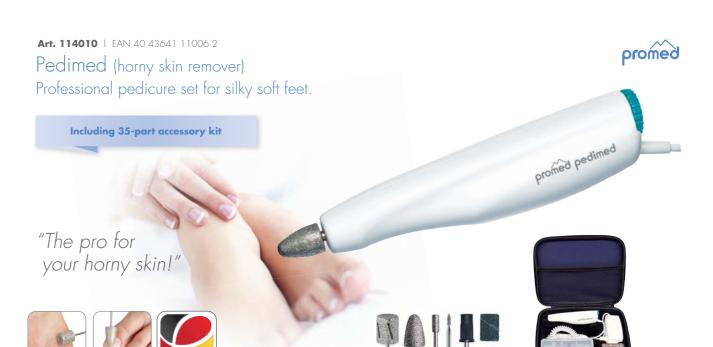

- All-in-One controller
- Overload protection
- Decorated with crystals from Swarovski®

- From nail cosmetics and design to the treatment of thickened skin
- Chuck (with new engine) with purple-glitter look (75 g light)

browed

- Efficiently and gently remove excess skin easily.
- Easily and simply moves excess horny skin on your feet and heel from the first application
- Soft and efficient treatment of your skin and nails
- Safe and easy operation due to its ergonomic design
- Slim, lightweight file fits comfortably in your hand
- Powerful 20,000 revolutions per minute (switchable clockwise/anti-clockwise rotation)
- High-quality, durable abrasive wheels with a standard shaft dental diameter
- Also ideal when on travel and on the go
- Incl. 30 abrasive belts, 5 abrasive wheels in a designer box, designer case

For fabulously beautiful feet in the summer and the winter

"Show me your feet" - with pleasure throughout the day

Our feet do a lot. They carry us through the day. They are wedged into shoes. They suffer from a lack of attention. As a result, they often provide feedback in the form of unsightly calluses. A thick callus is annoying, unsightly, and can become a health risk.

You can have beautifully soft feet with regular care simple and effective with an electric callus remover.

Ultra pro S (manicure/pedicure)

"Elegant top class"

- Satisfies with its comfortable operation
- The grinding force can be continuously adjusted up to 13.000 rpm
- The professional right/left rotation makes it easier to treat difficult areas

- An all-rounder, from satisfying nail care and design to the removal of calluses
- Including: storage box

Art. 133110 | EAN 40 43641 13019 0

Pedisenso Duo (manicure/pedicure)

"The file for diabetics"

- Injury-free treatment thanks to the "diabetic safety chuck"
- Automatic stop when too much pressure is applied
- Established, powerful technology using epicyclical gearing (for calluses removal)

- Grinding force is continually adjustable up to 4.000 rpm
- Accessories: see p. 170 for collets

Art. 173010 | EAN 40 43641 17001 1

Sensitive (manicure/pedicure)

Incl. 42 accessories

"Top class quality with LED-light"

product film:

- Cold light illumination (with LED-lighting), Security Stop
- Comfortable, dust proof soft touch operation buttons control clockwise/counterclockwise rotatio
- Continuously adjustable up to 12.000 rpm
- Power safety transformator, intensity display with 5 LEDs
- Incl. storage box and mircofiber duster

Art. 100030 | EAN 40 43641 10005 6

Emotion (manicure/pedicure)

Incl. 41 accessories

"All-rounder with LED-light"

with cold light illumination

inkl. storage case

- For the simple and safe care of nails and problem zones, such as thickened skin on the ball of the foot and the heel
- Continuously adjustable up to 12.000 rpm
- Safety stop prevents possible injury if too much pressure is applied
- Comfortable operation using buttons for grinding force and with right/left rotation

Feeling (manicure/pedicure)

promed

Incl. 6 accessories

"Accu powered"

- Trims and shapes the nails, repairs cracked (artificia) nails, removes cuticles and thickened areas of skin very easy
- New chuck to change the bits faster, optimized rotation-balance

- 2 speed levels (7.000 rpm, 11.000 rpm)
- Maximal freedom of movement without cable
- Very powerful motor (new), for use with accur

- Care and treatment of nails, cuticles and slight calluses
- 7 high-quality accessory parts for various applications
- Additional nail-polishing attachment with 2 smoothing and polishing rollers
- With an LED light for a precise application
- Clockwise and counter-clockwise rotation
- High quality and durable attachments

- Stops automatically when the pressure is too high
 also suitable for diabetics
- Natural, durable nail gloss (without additional care products)
- Simple to use, easy replacement of the attachments
- Incl. 7 attachments, storage case

- 2 speed levels for individual needs of nail care
- High quality and durable attachments
- Clockwise and counter-clockwise rotation
- Simple to use, easy replacement of the attachments
- With storage bag

- Care and treatment of nails, cuticles and hard skin
- Continuous speed adjustment
- Clockwise and counter-clockwise rotation
- With 4 attachments for various applications
- Rotation speed: 1600 5000 rpm
- With storage pouch

Art. M85160 | EAN 40 15588 85160 5

Medisana[®]

NP 860 Electric Nail Polisher

Incl. 2 smoothing and polishing rollers

Art. M88570 | EAN 40 15588 88570 9

CR 860 Electric Callus Remover

Medisana[®]

- Simple to use on fingernails and toenails
- Small and handy ideal even when travelling
- 2 speed levels for individual needs of nail care
- Ergonomic design
- Smoothing and polishing in two steps to nails with the "Wow" effect
- Incl. 2 batteries (1.5 V AA)
- approx. $15.5 \times 3.6 \times 3.3$ cm

- Gently and effectively remove excess calluses
- For smoother hands, feet and elbows
- Apply to dry skin
- 2 speed levels
- Ergonomic, non-slip handle
- Incl. cleaning brush, protective cover, storage bag and batteries
- approx. $15.7 \times 6.7 \times 4.6$ cm

IPL 850 Hair removal system

Long-life quarz cartridge with 200,000 light pulses

- High-quality quartz cartridge with 200,000 flashes
- Effective technology for permanent hair reduction
- Suitable for the face, arms, legs, underarms, bikini zone, back, chest
- Automatic skin tone sensor in 6 light intensity levels (4 manually selectable levels)
- LCD display shows the adjusted energy intensity as well as the number of used light pulses
- Long-life quarz cartridge with 200,000 light pulses

- Disables the hair root deep under the skin and prevents further hair growth
- easy and safe to use at home
- Safe and effective for the treatment of skin types I – VII and black to red hair
- Integrated UV filter
- Flash-glide function for comfortable use
- Sensor starts treatment when skin contact is made
- Automatic shut-off after 3 min.
- Accessories p. 178

Art. M88585 | EAN 40 15588 88585 3

IPL 840 Hair removal system

Durable glass cartridge with 100,000 light pulses

- Effective technology for permanent hair reduction
- Suitable for the face, arms, legs, underarms, bikini zone, back, chest
- Automatic skin tone sensor in 6 light intensity levels (4 manually selectable levels)
- Durable glass cartridge with 100,000 light pulses
- Disables the hair root deep under the skin and prevents further hair growth
- Easy and safe to use at home
- Safe and effective for the treatment of skin types I – VII and black to red hair
- Integrated UV filter
- Flash-glide function for comfortable use
- Sensor starts treatment when skin contact is made
- Automatic shut-off after 3 min.
- Accessories p. 178

CM 835 Cosmetics mirror

- Illuminated cosmetic mirror
- 2 swivelling mirrors: Normal and 5x magnification
- Ring illumination from 12 white LEDs
- Diameter of mirror approx. 12 cm

- High-quality chrome finish
- Stable base
- Incl. 3 batteries (1.5 V AAA)

Art. M88550 | EAN 40 15588 88550 1

Medisana°

CM 840 2 in 1 Cosmetics mirror

- Illuminated cosmetics mirror
- Stable base
- Swivelling mirrors: normal and 5x magnification
- High-quality chrome finish
- Bright LED light (16 white LEDs)
- Diameter of mirror: approx. 13 cm
- Batteries: $4 \times 1,5 \text{ V (AAA)}$

Art. M88552 | EAN 40 15588 88552 5

Medisana°

CM 845 3 in 1 Cosmetics mirror

- Illuminated cosmetics mirror
- Easy wall mounting
- Stable stand (incl. Magnet)
- Ergonomic handle
- Swivelling mirrors: normal and 5x magnification
- High-quality chrome finish
- Bright LED light (16 white LEDs)
- Diameter of mirror: approx. 13 cm
- Batteries: $4 \times 1,5 \text{ V (AAA)}$

Medisana[®]

FB 880 Facial cleansing brush

washable

- Frees the skin of dead skin cells
- Gentle vibration stimulates facial skin circulation and improves the absorption of care products
- For immediate fresh-looking skin and a more radiant complexion
- Cleanses the skin in 60 seconds
- 2 speed settings: normal or intensive cleansing

- Switches off automatically after 1 minute
- Includes 3 cleansing attachments (normal skin, sensitive skin, exfoliator)
- Batteries last up to 70 hours
- Waterproof (IPX 6)
- Incl. 3 cleansing attachments, protective cover and batteries
- Batteries: $2 \times 1,5 \text{ V (AA)}$

Art. M88565 | EAN 40 15588 88565 5

FB 885 Facial cleansing brush

- Frees the skin from dead skin particles
- Gentle vibration stimulates the blood circulation and promotes the absorption of care products
- Cleanses the skin in 60 seconds (Timer)
- 4 speed settings
- Switches off automatically after 1 minute

- Splash-proof
- Rechargeable lithium-ion battery
- Incl. protective cover, storage/carrying bag and charge base and 4 cleansing attachments
 - (1) Sensitive skin, (2) regular skin, (3) peeling,
 - (4) cosmetics sponge)

Health and blood pressure

Blood pressure monitors support better preventative health care and optimise your health.

The first step to better health: monitoring

Health checks increasingly become the focus of many people – on the one hand, due to the better health education of the population and, on the other, because of the progress in medical research.

Regularly measure and check precisely your blood pressure and heart rate.

Monitor your health and identify irregularities in due time.

According to estimates of the German Hypertension Society, approximately 50 % of all Germans suffer from hypertension. But only one in two know that they have this disease. These figures are alarming. After all, high blood pressure is dangerous: Over the years, it damages important organs such as the heart, brain or kidneys. The worst consequences: heart attack or stroke.

Therefore, the most important objective when treating high blood pressure, whether by making your lifestyle healthier or by taking medicine, is the permanent lowering of the blood pressure to a normal value. In order to achieve this, however, you have to know your blood pressure value.

In addition to avoiding risk factors such as stress, lack of exercise, overweight, alcohol and tobacco consumption, regular monitoring of blood pressure helps minimise the risk and prevent long-term consequences.

BDS-700 Upper arm blood pressure monitor

DE, EN, ES, NL, FR, IT, PT

- Diagnostic function with traffic light colour code: classification of the measured values according to the classification system of the World Health Organization
- Particularly large display: systole, diastole, heart rate, date, time
- Arrhythmia indicator

Cuffs in different sizes see p. 172

- 60 memory spaces
- Adjustable volume, connection for power adapter
- Automatic switch-off after 1 minute of inactivity
- Measuring range: Blood pressure: 40 260 mmHg
 Pulse: 40 180 beats/min
- Optionally available: Cuff (30 42 cm);
 Cuff (42 48 cm)

Art. 411010 | EAN 40 43641 400 36 1 BDP-200 Upper arm blood pressure monitor Incl. 4 AAA (1.5 V) batteries, cuff size M (23 - 33 cm), storage bag Storage bag

- 40 memory slots for each of 3 users
- Display: Systole, diastole, pulse, date, time
- Arrhythmia indicator
- Automatic switch-off function after 1 minute of non-use
- Display of the average value of the last three measurements

Cuffs in different sizes see p. 172

- Blood pressure classification according to WHO
- Size of the arm cuff: approx. 23 33 cm
- Measuring range: Blood pressure: 0 300 mmHg;
 Pulse: 40 199 beats/min
- Optionally available: Cuff (size L, 33 43 cm)

PBM-3.5 Upper arm blood pressure monitor

Cuffs in different sizes see p. 172

- Precise blood pressure measurement on the upper arm
- 90 memory slots for each of 2 users
- Display readouts: systolic, diastolic, pulse, date, time
- Arrhythmia display
- Average value display of the last 3 measurements
- Large digital LCD display: approx. 72 x 53 mm
- Automatically switches off after 3 min
- Operation with 4 x AA batteries or with 6 Volt AC Adaptor
- Including: Storage bag and batteries
- Measuring range: Blood pressure: 0 299 mmHg
 - Pulse: 40 199 beats/min

Art. M51290 | EAN 40 15588 51290 2

Medisana[®]

BU-92E Upper arm blood pressure monitor

- Accurate blood pressure measurement on the upper arm
- 60 memory slots for each of 2 users
- Display items: systolic, diastolic, pulse, date, time
- Arrhythmia indicator
- Measurements are classified according to the WHO (World Health Organisation) evaluation system using a traffic-light colour scale
- Calculates average value of data of the last 3 results
- Cuff for arm circumferences 22 30 cm (optional: 30 - 42 cm, Art. 51126)
- Including: batteries
- Measuring range: Blood pressure: 0 299 mmHg
 - Pulse: 40 199 beats/min

HGP-30 Wrist blood pressure monitor

- 120 memory spaces each for 2 users
- Display: systole, diastole, heart rate, date, time
- Arrhythmia indicator
- Battery level indicator
- Calculation of the average of the last 3 saved value
- Classification of the measured values according to the classification system of the World Health Organization
- Includes: 2x AAA (1.5 V) batteries, storage box
- Cuff for 125 215 mm wrist size
- Measurement range:
 - Blood pressure: 30 280 mmHg - Heart rate: 40 - 200 beats/min

Art. 412010 | EAN 40 43641 40035 4

HGP-50 Wrist blood pressure monitor

- 40 memory spaces for 3 users
- Display: Systole, diastole, pulse, date, time
- Arrhythmia indicator
- Automatic switch-off function after 1 minute of non-use
- Blood pressure classification according to WHO
- Display of the average value of the last three measurements
- Included: 2 AAA (1.5 V) batteries, storage box
- Cuff for a wrist circumference of 135 195 cm
- Measuring range: Blood pressure: 0 300 mmHg - Pulse: 40 - 199 beats/min

- Display items: systolic, diastolic, pulse, date, time
- Arrhythmia indicator
- 120 memory spaces for each of 2 users
- Very large digits for easy reading
- Ultra slim design

- Calculates average value of data of the last 3 results
- Cuff for wrist circumferences 14-19.5 cm
- Incl. storage box, batteries (2 x 1.5 V AAA)
- Measuring range: Blood pressure: 0 299 mmHg
 - Pulse: 40 180 beats/min

Medisana App-World

Getting to know your own body.

The MEDISANA App-World enables qualified health monitoring and promotes personal health. All apps have the goal of promoting self-responsibility for the own health.

VitaDock+App 2.0

The free VitaDock+ App for all vital signs, which can then be clearly displayed in the form of daily, weekly, monthly and yearly views.

VitaTherm App

The continuous monitoring of body temperature offers special comfort in the case of illness. An alarm will be triggered im-mediately if the temperature increases above a set value.

Sleepace App

How well do you sleep? Sleep depth, duration, heart and respiratory rates and movements during sleep - all conveniently recorded.

Marmo App

The body temperature in a continuous real-time monitoring. All values at a glance. All risks are minimised

Bodytoner App

What type of massage is good? And with what intensity can you attain the best result? With the help of the Body Toner app, the form and intensity of the massage can be individually controlled.

Download VitaDock+ App 2.0:

Download Thermo App:

Normal temperature display

"Fever alarm" through colour indication

- Hygienic and safe measuring without skin contact
- Within seconds: precise measuring of the body, room and surface temperature
- Visual fever alarm; 30 memory spaces
- 3 different display colours for normal temperature, slight fever and fever

(Subject to changes in colour)

- Display in ° C and F
- Automatic switch-off (after 30 sec)
- Measuring range for body: 32.0 42.9° C
- Measuring range for surfaces/objects: 0 100° C
- Including 2x batteries

Art. M76150 | EAN 40 15588 76150 8

TM 770 Multifunctional thermometer

NEW Available Q2 / 2018

Precise measurement of body temperature at the forehead

"Fever alarm" indicated by a colour display

- Additional function: measurement of ambient temperature, liquids and surfaces (0 - 100° C)
- Visual fever alarm with colour change green: temperature normal, red: raised temperature
- Automatic storage of the last 32 measurement results
- Acoustic signal at the beginning and end of temperature reading
- Automatic power off after 30 seconds
- Display in °C and °F
- Measuring range object: 0 100° C
- Measuring range body temperature: 32 42,9° C
- Including: Batteries $(2 \times 1,5 \text{ AA})$

TM 735 connect Bluetooth

Bluetooth thermometer

Incl. 10 x 3M pads

Where to use: on the skin, in the armpit

- Continuous real-time monitoring of body temperature
- Universal user group: for small children to adults
- Bluetooth® Smart data transfer to the ThermoApp for iOS and Android
- Where to use: on the skin, in the armpit

- If using on children below 2 years of age, consult a doctor
- Measuring range: 25 45° C
- Incl. battery (1x CR2025)

Art. M76163 | EAN 40 15588 76163 8

TM 740 connect Bluetooth Bluetooth thermometer

Available Q2 / 2018

Medisana[®]

Incl. 10 x 3M pads

Continuous real-time monitoring of body temperature

- Continuous real-time monitoring of body temperature
- Coloured LEDs on the thermometer indicate the temperature range - green: normal temperature, Yellow: increased temperature:, Red: Fever (from 38 °C), Blue: Bluetooth connection to the smartphone has been set up
- Very flat thermometer for pleasant wearing comfort

- Bluetooth® Smart data transfer to the VitaTherm app for iOS and Android
- Where to use: on the skin, in the vicinity of the armpit
- Universal user group: for small children to adults
- Measuring range: 32 42° C
- Incl. battery (1 x CR2032)

TM 750 connect Bluetooth* Infrared multifunctional thermometer

Precise measurement of body temperature at the forehead and in the ear

- Bluetooth® Smart (4.0) data transfer to the VitaDock + app for iOS and Android** and afterwards to VitaDock Online
- Additional function: measurement of ambient temperature, liquids and surfaces (0 100° C)
- Visual fever alarm with colour change green: temperature normal, red: raised temperature

- Acoustic signal at the beginning and end of temperature reading
- Automatic storage of the last 30 measurement results
- Display of date and time
- Measuring range object: 0 100° C
- Measuring range body temperature: 34 43° C
- Including: Battery and convenient storage bag

Art. M76140 | EAN 40 15588 76140 9

TM 750 Infrared multifunctional thermometer

Acoustic and visual fever alarm: Green LED: temperature normal Red LED: raised temperature

Including: batteries, storage pouch

- Additional function: measurement of ambient temperature, liquids and surfaces (0 - 100° C)
- Visual fever alarm with colour change green: temperature normal, red: raised temperature
- Automatic storage of the last 30 measurement results

- Acoustic signal at the beginning and end of temperature reading
- Display of date and time
- Measuring range object: 0 100° C
- Measuring range body temperature: 34 43° C
- Including: batteries, storage pouch

- Precise non-contact measurement of the body temperature
- Additional function: measurement of ambient temperature, liquids and surfaces
- Measurement in a few seconds
- Automatic storage of the last 30 measurement results
- Visual fever alarm with colour change in the display
- Measuring range object: 0 100° C
- Measuring range body temperature: 34 42,2° C
- Including: batteries, storage case

Art. M23400 | EAN 40 15588 23400 2

TM-65E

Infrarot-Thermometer - non-contact

ecomed

- Precise non-contact measurement of the body temperature
- Additional function: measurement of ambient temperature, liquids and surfaces (0 - 100° C)
- Optical fever alarm
- Measurement in a few seconds
- Large, illuminated LCD display

- Automatic storage of the last 30 measurement results
- Automatic power off after 30 seconds
- Conversion from °C to °F
- Measurement range: 0 100° C
- Including: batteries, storage bag

Including: storage box, battery

- Precise measurement of your body temperature: orally, axillary, rectally
- Acoustic signal when ready for measurement
- Acoustic temperature alarm
- Last measured value is automatically saved

Art. 470998 | EAN 40 43641 40072 9 Counterdisplay

(incl. 20 pieces PFT-3.7)

- Waterproof
- Automatic switch-off after 10 minutes
- Digital LCD display
- Easy battery change
- Measuring range: 32.0 42.9 °C

Art. M77042 | EAN 40 15588 77042 5 TM 705 Thermometer – flexible

NEW Available Q3 / 2018

- Precise measurement of the body temperature: oral, axillary, rectal
- Flexible tip
- Measurement in 10 seconds
- Water resistant
- With fever indicator: green: 35.8 37.1 °C;
 yellow: 37.2 37.8 °C; red: 37.9 42.9 °C
- Acoustic fever alarm
- Acoustic signal at the beginning and end of temperature reading

- Automatic storage of the last measurement result
 - Automatic power off after 10 minutes
- Digital LCD-display
- Conversion from °C to °F
- Easy battery replacement
- Incl. storage box
- Incl. battery (1x 1.5V AG3/LR41)
- Measuring range: 32 42.9 °C

TM~700 Digital thermometer – flexible

- Acoustic signal at the beginning and end of temperature reading; digital LCD display
- Acoustic fever alarm
- Automatic storage of the last measurement result
- Water resistant; flexible tip
- Automatic power off after 10 minutes
- Conversion from °C to °F
- Measurement in 10 seconds
- Measuring range: 32,0 42,9° C
- Including: storage case, battery

FTC Digital thermometer

- Precise measurement of the body temperature: oral, axillary, rectal
- Acoustic signal at the beginning and end of temperature reading
- Acoustic fever alarm
- Automatic storage of the last measurement result
- Water-resistant
- Automatic power off after 8 minutes
- Digital LCD display
- Easy battery replacement
- Measuring range: 32,0 42,0° C
- Including: battery, storage case

TM-60E Thermometer – flexible

- Precise measurement of the body temperature: oral, axillary, rectal
- Acoustic signal at the beginning and end of measurement
- Acoustic fever alarm
- Watertight
- Flexible tip
- Measurement in 10 seconds
- Measurement range: 32,0 42,9° C
- Including: batteries, storage case

- Precise measurement of the body temperature: oral, axillary, rectal
- Acoustic signals
- Watertight
- Automatic power off
- Measurement range: $32,0-42^{\circ}$ C
- Including: batteries, storage case

Incl. Batteries: 3 x 1,5 V (AAA)

- Measurement of weight, body fat, body water, muscle percentage and bone weight
- Determination of the BMI value
- Integrated calorie requirement analysis (BMR)
- Automatic recognition of up to 8 users
- High-quality stainless steel electrodes
- Convenient "step-on" switch
- Large easy-to-read LCD display
- Toggles between kg, lb and st

- Four high-precision strain gauge sensors for accurate readings
- 30 memory spaces for each of 8 users
- Body analysis **not** applicable for persons with implants (e.g. pacemakers)
- Maximal load capacity: 180 kg
- Incl. batteries $(3 \times 1.5 \text{ V AAA})$
- Graduation: 100g, 0.2lb, 1/4lb
- Analysis functions: weight (kg), body fat (%), muscle mass (%), body water (%)

Art. M40422 | EAN 40 15588 40422 1

BS 430 connect Bluetooth

Body analysis scale

Incl. Batteries: 4 x 1,5 V (AAA)

- Measurement of weight, body fat, body water and muscle mass
- Determination of the BMI value
- Integrated calorie requirement analysis (BMR)
- Convenient "step-on" switch
- Large easy-to-read LCD display with backlight
- High-quality stainless steel electrodes
- Toggles between kg, lb and st
- Four high-precision strain gauge sensors for accurate readings

32.5 cm

- Automatic detection of up to 8 users on the scale
- Body analysis not applicable for persons with implants (e.g. pacemakers)
- Bluetooth® Smart (4.0) data transfer to the VitaDock + app for iOS (7.0) and Android (4.3) and to VitaDock Online
- Measuring range up to 180 kg
- Graduation: 100 g, 0,0 lb, 1/4 lb
- Analysis functions: weight (kg), body fat (%), muscle mass (%), body water (%)

BS 440 connect Bluetooth

- Determination of the BMI value
- Integrated calorie requirement analysis (BMR)
- Convenient "step-on" switch
- Large easy-to-read LCD display with backlight
- Ultra thin high quality ITO electrodes
- Toggles between kg, lb and st
- Four high-precision strain gauge sensors for accurate readings

- 32 cm
- Automatic detection of up to 8 users on the scale
- Body analysis not applicable for persons with implants (e.g. pacemakers)
- Bluetooth® Smart (4.0) data transfer to the VitaDock+ app for iOS (7.0) and Android (4.3) and to VitaDock Online
- Measuring range up to 180 kg
- Graduation: 100 g, 0,0 lb, 1/4 lb
- Analysis functions: weight (kg), body fat (%), muscle mass (%), body water (%)

Art. M40413 | EAN 40 15588 40413 9

TargetScale® 3 \ Bluetooth Body analysis scale with target function

Medisana[®]

Incl. Batteries: 4 x 1,5 V (AAA)

- Precise determination of weight, Body Mass Index (BMI), kcal per day, calculates percentage of body fat and water as well as muscle and bone mass
- Flashing circles visualise the current difference from the target weight
- Automatic recognition and indivi-dual definition of the target weight
- Multiuser: Automatic detection of up to 8 users (max. 4 iOS-units)
- Stores up to 250 measurements in the scale memory (automatic data update transmission with the next connection with iOS-device)

- Bluetooth® data transfer to VitaDock Online and to the VitaDock app for iOS and Android (4.3)
- Athlete mode for sportspersons
- Interactive and particularly large matrix display with personal avatar-function
- Balance test
- Measuring range up to 180 kg
- Graduation: 100 g, 0,0 lb, 1/4 lb
- Analysis functions: weight (kg), body fat (%), bone mass (kg), muscle mass (%), body water (%), body mass index (BMI), calorie requirements (kcal)

PS 435 Designer glass scales

- Invisible LED display only visible while weighing
- Large, easy to read LED illuminated numerals (28 mm)
- Convenient "step-on" activation
- Energy-saving automatic switch-off after 10 seconds
- Surface made from 6 mm extra-clear safety glass with rounded corners
- 4 high precision DMS sensors for precise measurement results

- Particularly flat design
- Can be switched between kg, lb and st

30 cm

- Overload indicator
- Battery change indicator
- Maximum load capacity: 180 kg
- Includes batteries (3 × 1.5 V AAA)
- Maximum load capacity: 180 kg

Meditouch 2 connect Bluetooth Blood glucose monitor

Measuring time within 5 seconds

Including "starter set": 10 test strips, lancing device, 10 lancet, AST cap, control solution, 5 alcohol pads, pouch, quick reference guide, diabetic diary, batteries

- Precise measurement accuracy according to the new ISO 15197: 2013 thanks to new test strip technology (GDH-FAD)
- Underfilling detection
- USB port for data transfer to VitaDock Online and to the VitaDock app for iOS (7.0) and Android (4.3)
- Pre and post meal marker
- Acoustic test reminders

- Calculates average values for 7/14/30/90 days
- 480 memory slots
- Automatic ketone warning
- Starter set incl. lancing device, AST cap, 10 lancets, 10 test strips, control solution, bag
- 0,6 µl blood
- Extra large, easy-to-read display
- Accessories, e.g. test strips see p. 176

Art. M79048 | EAN 40 15588 79048 5

Meditouch 2 connect DUAL USB • C+ Blood glucose monitor

Including a "starter set": 10 test stripes, lancing device, 10 lancets, AST cap, control solution, bag, user instruction manual, batteries

Can only be ordered in Germany!

- Bluetooth® Smart (4.0) data transfer to VitaDock + App for iOS (from 7.0) and Android (from 4.3)
- Starter set incl. lancing device, AST cap, 10 lancets, 10 test stripes, control solution, bag
- Accessories, e.g. test stripes, see p. 176

- Precise measuring accuracy corresponds to the new ISO 15197:2013 thanks to the new test stripe technology (GDA-FAD)
- Underfilling detection
- Acoustic test reminder
- Measuring unit individually adjustable: mg/dL and mmol/L

Meditouch 2 connect Bluetooth Blutzuckermessgerät

Measuring time within 5 seconds

Including "starter set": 10 test strips, lancing device, AST cap, 10 lancets, control solution and bagdiabetic diary, batteries

starter set

- Precise measurement accuracy according to the new ISO 15197: 2013 thanks to new test strip technology (GDH-FAD)
- Measuring unit individually adjustable: mg/dL or mmol/L
- Underfilling detection
- USB port for data transfer to VitaDock Online and to the VitaDock app for iOS (7.0) and Android (4.3)
- Pre and post meal marker

- Acoustic test reminders
- Calculates average values for 7/14/30/90 days
- 480 memory slots
- Automatic ketone warning
- Starter set incl. lancing device, AST cap, 10 lancets, 10 test strips, control solution, bag
- 0,6 µl blood
- Extra large, easy-to-read display
- Accessories, e.g. test strips see p. 176

- Pulse oximeter to measure the saturation of oxygen in blood (SpO² %) and the heart rate (pulse)
- View measurements on a LED display
- Simple "one touch" operation also ideal for travelling
- Automatic switch-off after 8 seconds

- Bluetooth® Smart (4.0) data transfer to the VitaDock + app for iOS (7.0) and Android (4.3) and afterwards to VitaDock Online
- Including: Battery

Art. M79455 | EAN 40 15588 79455 1

- Pulse oximeter to measure the saturation of oxygen in blood (SpO² %) and the heart rate (pulse)
- Oxygen saturation (SpO²) and pulse rate can be displayed as bars or waves
- View measurements on a OLED display
- Viewable from 6 different angles

- Display brightness adjustable over 10 levels
- Simple "one touch" operation also ideal for travelling
- Automatic switch-off after 8 seconds
- Battery level indicator
- Including: Batteries, carrying strap

ViFit touch & Bluetooth Activity Tracker

- Activity and Sleep Tracker in one
- Touch display
- Activity mode: Tracks steps, distance, burned calories, activity time in hours and daily target in %
- Sleep mode: Tracks activity during sleep and hours slept
- Vibration alarm clock
- Displays incoming calls or messages
- Highly sensitive motion sensor for precise activity measurement: reacts to steps (not vibrancy)
- Stores the results of the last 15 days

- Data transfer via Bluetooth® Smart (4.0) to the VitaDock+ app for iOS and Android for evaluation and monitoring in clear diagrams
- High-quality OLED display
- Splashproof
- Individual dialy goals and movement reminder
- Scratch and abrasion resistant housing
- Battery life: 5-7 days
- Battery: rechargeable lithium-ion battery
- Time and battery indicator

Art. M79790 | EAN 40 15588 79790 3

ViFit connect MX3 Bluetooth Activity Tracker

Incl. 3 wristband in 2 lengths (black, aqua, coral)

Medisana[®]

- Activity and Sleep Tracker in one
- High-quality OLED display
- Easy 1-button operation
- Stores the results of the last 7 days
- Flight mode (Bluetooth deactivated)
- Splashproof
- Datenübertragung mit Bluetooth® Smart (4.0) an die VitaDock+ App für iOS (ab 7.0) und Android (ab 4.3) zur Auswertung und Darstellung in übersichtlichen Diagrammen
- Activity mode: Tracks steps, distance, burned calories, activity time in hours and daily target in %
- **Sleep mode:** Tracks movement activity during sleep and duration of sleep
- Motion sensor for activity measurement: counts actual steps
- Vibration alarm clock
- Scratch and abrasion resistant housing
- Battery life: up to 7 days
- Rechargeable lithium-ion battery
- Display of time, date and battery indicator

- Particular suitable for punctual self-massage for example, of the back, neck etc.
- For the targeted application of fascia, trigger points and muscles
- Especially gentle to the spine thanks to a pull-out mechanism – choosable distance between the spheres (20-24 cm)
- For extended applications such as the arms, legs etc.
- For activation and regeneration, as well as for strength and stability exercises
- Resistant to moisture
- Designed in Germany
- Size: approx. 20x10x10 cm, ø 15 cm
- Weight: approx. 0.13 kg

Art. M79534 | EAN 40 15588 79534 3

PowerRoll Slim Massage roll

Available from Q4 / 2018

- PowerRoll Slim with deep vibration
 - reaches even the deep muscles
- For activation and regeneration, for strength and stability exercises, and fascia training
- 4 intensity levels
- Simple single-button operation
- Firmness: Medium
- LED indicator for the selected intensity level and 3-stage charge indicator
- Surface texture promotes the massage effect

- Surface is resistant to moisture
- Integrated rechargeable lithiumion batteries (charger included)
- Max. operating time with a fully charged battery: approx. 180 min. (depending on the intensity level selected)
- Automatic stop after 15 min. of operating time
- Capacity indicator
- Length: approx. 31 cm, Ø 8.5 cm
- Weight: approx. 0.8 kg

Includes training DVD and training plan

- PowerRoll with deep vibration
 reaches even the deep muscles
- For activation and regeneration, for strength and stability exercises, and fascia training
- 4 intensity levels
- Simple single-button operation
- Firmness: Hard
- LED indicator for the selected intensity level
- Surface texture promotes the massage effect

- Surface is resistant to moisture; capacity indicator
- Integrated rechargeable lithium ion battery (charger included)
- Max. operating time with a fully charged battery: approx. 180 min. (depending on the intensity level selected)
- Automatic stop after 10 min. of operating time
- Length: approx. 31 cm, Ø 15 cm Weight: approx. 0.75 kg

Art. M79532 | EAN 40 15588 79532 9

PowerRoll XT Massage roll

Available from Q2 / 2018

- For activation and regeneration, for strength and stability exercises, and fascia training
- 4 intensity levels: Firmness: Hard
- LED indicator for the selected intensity level
- Surface texture promotes the massage effect
- Surface is resistant to moisture

- Max. operating time with a fully charged battery: approx. 180 min. (depending on the intensity level selected)
- Automatic stop after 10 min. of operating time
- Includes training DVD and training plan
- Length: approx. 45 cm, Ø 15 cm
- Weight: approx. 0.9 kg

- Particularly suitable for selective self-massage - e.g. For the back, neck, etc.
- For targeted application on fascia, trigger points and muscles
- For larger areas of application such as arms, legs, etc.
- 4 different intensity levels
- Capacity indicator
- LED indicator for the selected intensity level
- Resistant to moisture

- For activation and regeneration, and for strength and stability exercises
- Designed in Germany
- Timer: 10 min Volume: < 60 dBA
- Operating time: 120 minutes at intensity 4
- Size: Ø 13 cm
- Weight: approx. 0.82 kg

Body Trainer (EMS pad)

Medisana°

Available from Q1 / 2018

Art. M79477 | EAN 40 15588 79477 3

Fitness mat

Medisana[®]

- For building muscles
- Auto programmes: Massage, acupuncture, tapping, combination
- Set includes 3 pads (1 stomach pad, 2 arm pads)
- Intensity adjustable across 15 levels
- Automatic switch-off after 20 min.
- PU leather pads
- Includes 3 controllers and 3 batteries (CR2032)
- Size: 17x18.5 cm (stomach pad); 5x20 cm (arm pad)
- Weight: 30 g (stomach pad); 13 g (arm pad)

- Damping (shock-absorbent), soft surface
- Lightly ribbed surface
- Carry strap for easy transportation
- Surface is resistant to moisture hygienically wipeable
- Size: approx. $60 \times 190 \times 1.5$ cm
- Weight: approx. 0.85 kg

- Easy retrieval of acupuncture points (acoustical and visual signal)
- Stimulation intensity is individually eligible and controllable by LED display, manual stimulation or with timer (30 or 60 s)
- 6 stimulation intensities selectable

- Ergonomic design
- With using korrectly treatment without side effects
- Including: gilded tip for auricular acupuncture, earphone, external electrode, with specially book for acupuncture (DE + EN - 148 pages, more than 100 illustrations), batteries

- EASY AND SAFE TO USE
- NO HEALTH RISK
- SELF- OR COUPLE THERAPY
- NATURAL TREATMENT WITHOUT SIDE EFFECTS

Gold-plated acupuncture tip

Earphones for acoustic signals

External wrist electrode

electro acupuncture-therapy instruction manual (DE+EN)

Art. 352430 | FAN 40 43641 35034 5

IT-6 Pelvic floor trainer Therapeutic device for training and strengthening the pelvic floor.

Incl. 4 electrodes, 1x vaginal probe, Batteries and practical storage box

- Used to prevent or reduce bladder weakness
- Treatment of incontinence after giving birth
- Training the sphincter muscles for treating stress
 / urge / mixed / faecal incontinence
- Using the electrical stimulation, you regain a feel for the pelvic floor and thus learn to effectively contract the pelvic muscles again

- The device fulfils all your need through simultaneous treatment of different regions using 4 electrode connections; thanks to the dual outputs, two probes can be used at the same time and controlled separately
- For anal and vaginal stimulation, can improve the sex life
- See P. 174 for available accessories

Art. 352420 | EAN 40 43641 35030 7

EMT-6 Combi-unit Digital, electrical pain therapy and muscle stimulation unit

Can also be used in sport

product film:

- Unit for effective pain and muscle therapy
- It is predestined for the treatment of chronic and acute pain conditions, mobility impairments and for rehabilitation, for the preservation, building up and training of muscles and muscle groups (e. g during sport)
- It can by prescribed by the doctor (cash refund)

- Two-channel unit, biphasic-asymmetric square pulse current, DC-neutral
- Package contents: combined unit for TENS & EMS in a practical storage case, 4 electrodes (40 x 40 mm), 2 electrode cables, batteries, beltclip
- Different electrodes see accessories p. 174

EMT-4

Combi-unit for electrical nerve

- 11 preset programs (5 Tens and 6 EMS programs)
- Intensity and power-on protection
- Combi-unit for Electrical Nerve and Muscle Stimulation, pain therapy and wellness
- Clock function in standby mode
- EMT-4 is able of order (cash refund)

- Scope of delivery: Promed EMT-4, 2 x self-adhesive electrodes (40 x 40 mm), unit pedestal, batteries, 2 x electrodes cable, manual instruction, keeping case, waist bag
- Different electrodes see accessories p. 174

Art. 352020 | EAN 40 43641 35001 7

Tens 1000 s Analog pain therapy device

- Timer: continuously, 15 and 30 min adjustable.
- The Promed tens 1000 s is able of order (cash refund).
- Scope of delivery: Promed Tens 1000 s, 4 self-adhesive electrodes (40 x 40 mm), 9-Volt battery, 2 contact cable, instructions, a practical plastic suitcase
- Different electrodes see accessories p. 174

TDP Digital pain therapy device *

Including:
4 electrodes, 2 connecting cables,
batteries, storage pouch

- 4 different applications: TENS, EMS, Deep TENS, acupuncture
- Storage of individual settings possible
- Automatic switch-off at the end of the programme
- Automatic switch-off after 10 seconds of non-use
- LCD display with backlight

- Two separately adjustable channels with four electrodes
- Safety circuit for electrode control
- Battery level indicator
- With storage pouch
- Different electrodes see accessories p. 177

Art. M88320 | EAN 40 15588 88320 0

Medisana°

BOB Digital abdominal muscle stimulator

Including batteries

- Flexible abdominal belt with inbuilt electrodes
- 10 programs to choose from
- 25 intensity levels to choose from

- Automatic switch-off at the end of the programme
- Can be worn under clothing thanks to the flat design
- Device is integrated into the belt no annoying cables

- Flexible Neoprene waist belt with incorporated electrodes
- Choice of 6 abdominal muscle training programmes of 30 minutes each
- Intensity can be set over 40 levels
- Can be worn under clothing thanks to the flat design
- Automatic switch-off at the end of the programme
- Simple operation with a large LCD display

- Device is integrated into the belt
- 1 channel with 4 electrodes
- Waist belt with Velcro closer
- Water contact electrodes, no need for contact gel
- Incl. 3 batteries (1.5 V AAA)
- Size: approx. $110 \times 16 \times 3$ cm
- Weight: approx. 0.31 kg

Art. M88330 | EAN 40 15588 88330 9

BT 850 Electronic body toner Bluetooth

Medisana[®]

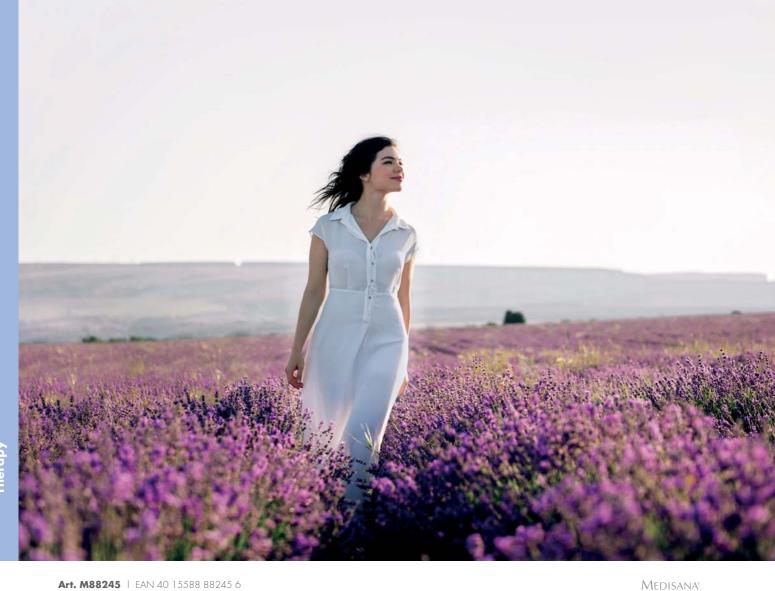

- Stimulates blood flow in the area of use
- Relaxes tense muscles
- Helps to build up muscles
- Compatible with: Bluetooth Smart 4.0 from iPhone 4s and Android 4.3 onwards
- 5 different application programmes for the waist, shoulder and neck, back, limbs
- 7 intensity levels to choose from
- With timer function

- Different user accounts can be saved with individual settings (name, age, height, weight, gender)
- Including 4 self-adhesive electrodes, storage box and replacement battery
- Only works in conjunction with the app
- Incl. storage box
- Incl. 2 batteries (CR2032)
- Size: Box: $12 \times 6.5 \times 2.5$ cm
- Electrodes: approx. ø 40 mm

Art. M88245 | EAN 40 15588 88245 6

FSS Facial sauna

Incl. nose piece, measuring cup

- For cosmetic use
- Opens the pores, cleans the skin and relaxes facial lines with humid heat
- Diffuser for even steam distribution
- With aroma attachment for beneficial aroma treatment
- Additional nose piece

- High-quality heating element
- Indicator light
- Measuring cup for easy filling
- Easy cleaning and handling
- Certified product safety
- Including: Nose piece, measuring cup

Medisana[®]

IN 500 Compact Inhalator

- Nebulisation with compressed air technology
- For targeted treatment of diseases of the upper and lower respiratory tract (e.g. asthma and cold)
- Highly efficient due to very precise nebulisation
- Particularly effective thanks to high proportion of respirable aerosols
- Comprehensive set of accessories: Inhalation with mask, mouthpiece or nose adapter – ideal for children
- Extra long hose 2 m
- Including: Mouth piece, masks for children and adults connecting piece, nose adapter for children and adults, 5 replacement filters
- Filling volume inhalant: max. 10 ml
- Nebulizing output: ≤ 0,2 ml/min
- Particle size: > 60% ≤ 5 µm
- More accessories see p. 177

Art. M54530 | EAN 40 15588 54530 6

IN 550 Pro Inhalator

Red: Mouth and throat Blue: Respiratory tract and front part of the lungs Yellow: Deeper parts of the lungs

- Nebulisation with compressed air technology
- For targeted treatment of diseases of the upper and lower respiratory tract (e.g. asthma and cold)
- Highly efficient due to very precise nebulisation
- Particularly effective thanks to high proportion of respirable aerosols
- Integrated accessory case
- Comprehensive set of accessories: Inhalation with mask, mouthpiece or nose adapter – ideal for children

- Extra long hose 2 m
- Including: Mouth piece, masks for children and adults connecting piece, nose adapter for children and adults, 5 replacement filters, 2 replacement fuses
- Filling volume inhalant: max. 10 ml
- Nebulizing output: ≤ 0,2 ml/min
- Particle size: $> 60\% \le 5 \mu m$
- More accessories see p. 177

INH-2.1 Ultrasound inhalator

promed

Gentle treatment in the case of respiratory diseases

Suitable for allergy sufferers: 100 % latex-free

Including handy starter set for on the move

- High efficiency due to innovative micro membrane nebulisation (mesh technology) with tiny droplets
- Short inhalation time due to very high nebulisation performance (0.32 ml/min)
- Particularly efficient due to the high respirable aerosol proportion
- Inhalation with mask or mouthpiece also easy to use for children
- Low-noise nebulisation

- Small and handy (portable) ideal for on the move
- Filling volume content: max. 8 ml
- Nebulisation performance: approx. 0.32 ml/min
- Particle size: 2.1 µm
- Size: approx. $42 \times 45 \times 93 \text{ mm}$
- Including: storage bag, mouthpiece, mask for children and adults, connecting piece, batteries
- Optionally available: power supply unit (Art. 422006), s. p 173

Inhaling vapour deeply and calmly and exhaling the same way

HAS A SOOTHING AND CALMING EFFECT

AFTER INHALATION, IT IS EASIER TO BREATH

Inhalation helps quickly and efficiently. The vapour – and thus its healing power or also that of added essential oils and medicines - directly reaches its destination without any detours.

There, the vapour moistens the dry mucous membranes, has a soothing and calming effect and improves the blood circulation in the nasopharyngeal zone. "Stuck" mucus in nose and bronchial tubes is loosened and can be "evacuated" by blowing your nose and coughing.

Breathing becomes easier again.

Storage bag + batteries

USC Portable ultrasonic inhalator

- For targeted treatment of diseases of the upper and lower respiratory tract (e.g. asthma and cold)
- High efficiency through innovative micro-membrane nebulisation (mesh technology) with ultrafine droplets
- Particularly effective thanks to high proportion of respirable aerosols
- Inhalation with mask or mouthpiece also eminently suitable for children
- Low-noise nebulisation
- Comprehensive set of accessories
- Inkluding: Storage pouch, mouth piece, masks for children and adults, connecting piece, batteries
- Filling volume inhalant: max. 8 ml
- Nebulizing output: approx. 0,4 ml/min
- Average particle size: 4,8 µm
- More accessories see p. 177

IR 885 Halogen infrared lamp

- Intensive infrared light to relax muscles or treat colds
- Stimulates blood circulation
- Adjustable tilt angle (35°)
- Durable lamp (halogen)
- Timer (15 to 1 minute)
- Fan caster for cooling
- Cord rewind
- Carrying handle
- Large-surface application
- Including: 1 lamp (Halogen)
- Spare lamps see p. 177

Art. M88254 | EAN 40 15588 88254 8

IRL Infrared lamp

- Stimulates blood circulation
- Relieves pain
- Optimised heat radiation thanks to pressed glass bulb
- Adjustable tilt angle
- Durable lamp (Philips)
- Made in EU
- Including: 1 lamp (Philips)
- Spare lamps see p. 177

- Monitors depth and duration of sleep, heart rate, respiration rate and movements when asleep
- Accurate and comprehensive analysis of sleeping habits
- Ultra-thin piezoelectric band (1.5 mm) for a comfortable fit between the mattress and the sheets
- Patented activation system
- Rechargeable lithium-ion battery
- Incl. USB charging cable

- Sleepace App functions:
- Automatic data transfer via Bluetooth Smart to the Sleepace App
- Saves and displays all measurement results clearly over time: day, week or month views
- Size sensor: approx. $8.8 \times 6.5 \times 1.5$ cm
- Weight: approx. 160 g

Art. M88258 | EAN 40 15588 88258 6

IRH Infrared lamp

- Intensive infrared light for relaxing the muscles or treating colds
- Promotes blood circulation
- Relieves pain

- Long-lasting bulb (Philips)
- Adjustable tilt angle
- See page 177 for replacement bulbs

With LED light

- Simply combing kills head lice and nits
- No side effects since no chemical products are used
- Integrated LED light makes it easier to find and remove the lice

(Subject to colour and technical changes)

- When they come into contact with the teeth of the comb, the lice are killed by an electrical pulse
- Also suitable for dogs and cats
- Includes 3 batteries (1.5 V AAA)

Lousy times. No need to panic!

Electric lice comb:

MAKES LICE EASY TO FIND AND REMOVE

Head lice! The little buggers can frisk around all of our heads. Lice infestations can happen - sometimes the irritating result of a chance meeting.

The mini-vampires are nippy: They know how to change hosts - whether child, adult, dog or cat - in no time at all. They're tough too: You can't get rid of them on your own. But an electric lice comb puts an end to them in a gentle way.

Height-adjustable neck massage

- Ergonomic fit of the massage seat cover
- Individually adjustable neck massage height
- 3 massage zones that can be chosen: entire, upper or lower back
- Separate vibration massage in the seat with 3 selectable intensity levels

- Additionally connectible red light and warming function
- Automatic switch-off after 15 minutes
- Easy-to-clean, durable material
- Washable, removable neck rest cover
- Practical hook and loop fastener for fixation to the chair back
- Power supply: 220 240 VAC / 50 60 Hz / 48 W

Relaxation and chilling at the press of a button!

- SOOTHING RELAXATION FOR THE MIND AND SPIRIT
- EASY AND CONVENIENT FOR THE HOME
- WARMING MASSAGE MADE EASY

Massages have proven themselves over thousands of years. The pressing, tapping, stretching and rubbing of painful parts of the body numbers among the oldest healing methods in the world – and simply does good.

Enjoy the benefits of a massage mat after a strenuous day...

A massage can:

Leather effect (RC 420)

Medisana[®]

RC 410 / RC 420

Feet in their element - bubbling sense of well-being

Water has a curing effect. In and with no other element is relaxing such a pleasure. And what deserves relaxation more than our feet which carry the heavy load of our body day by day?

NURTURING & CARING

A foot bath revitalises your whole body.

- A foot bath can:
- encourage blood flow
- have a relaxing effect
- detoxify the body
- stimulate metabolic processes
- activate the lymphatic circulation
- relieve complaints
- prepare for the pedicure ... and much more

SPECIAL SHOES, SOLES AND AIDS FROM PROMED

WE MAKE YOU MOBILE!

Special shoes for short-term and long-term care are essential part of the Promed product range.

One of the most extensive collections for fields such as therapy, rehabilitation and postoperative care was able to be developed through continuous further development in cooperation with orthopaedists, medical specialists, rehabilitation centres, geriatric nurses and diabetes specialists. Medical studies document the high standard of individual models.

Optimal functionality, high-quality materials and firstclass workmanship on the one hand, and innovative ideas and future-oriented technology on the other hand, constitute this holistic quality shoe concept.

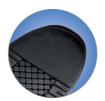

SOFTSTEP SOLE CONCEPT POST-OP SHOES

The outsole of bandage shoes usually doesn't look very spectacular. In most cases, it is not intended to because stimulation of the healing process is the main focus.

This is the very reason why Promed together with specialists found several new solutions which provide relief for people in need and which may stimulate the healing process.

Outsole high-grade PU, ergonomic design

Front without profile (Relief from Neuropathies and a shuffling gait)

Wider sole width for safe walking and standing

Diamond pattern profile with U-I format for slip resistance, harmonic roll-off and the best damping performance

With 20 degree beveled heel for safe driving and an ideal rolling gait

The newly developed Promed SOFT STEP sole concept combines safety and comfort to a particularly high degree.

- The sole (foot moulded) is made of high quality PU and of an ergonomic design
- The front of the sole is without a profile. This facilitates in neuropathies and shuffling feet the ability to walk as in everyday life
- The 20° bevelled heel provides for reliable step profile and an ideal foot rolling motion
- The slightly wider sole provides for safe walking and standing
- The diamond pattern tread pattern with the "U-I" format to prevent slipping indoors and outdoors, for a harmonious stride and best damping performance
- This creates excellent relief not only in the heel, but in the middle and forefoot. In addition, joints and spine are spared from shocks

Metashank - a special inlay relieves forefoot metatarsal pain and releaves every step

Cylindrical hollow spaces distributed over the entire sole considerably reduce weight and allow for excellent cushioning properties, especially at the heel

promed - perfect foot conditions

CosyFit (insole masterline)

AirMesh

(upper-meshline)

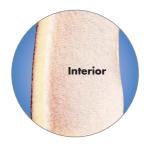

AirMesh + Larina-wool

The 3-ply material (pure new wool, CosyFit, Mesh) provid ecially in Winter, for toasty warm feet but do not over-

Models: GentleWalk-Hi, GentleWalk-Lo

Models:

- all Masterline, except Munchen
- all Classicline, except Munchen
- Classic 1 and 2

AirMesh with EasyDry

The 3-ply material (EasyDry, CosyFit, Mesh) provides specially in summer for well-conditioned feet. From the medical field is derived EasyDry fibre which removes moisture quickly away from the foot and dries quickly. Particularly suitable for Allergy sufferers.

Style: TheraLight 1, TheraLight 2-S

THE CORE MATERIAL

- Consists of breathable CosyFit-Material. This material provides for an especially good wear comfort and betterpressure relief at the sensitive places
- The multi-layered material, absorbs moisture of the foot tokeep dry, and after wearing dries quickly thus provides for a good foot climate

THE UPPER

- Its network structure and the 3 mm porous CosyFit-special foam lining makes it breathable, so it has 'air conditioning' and provides a perfect feeling of comfort for your feet
- It comes from the medical field and is free of toxic ingredients. Ideal for Allergy sufferers and particularly suitable for diabetics.

Frottee-Futter Terry cloth lining

A corn (also clavus from the Latin word for nail) is a callus formation which is caused by chronic pressure on the skin close to bone with central (nail-shaped) spores directed downwards and which is often painful.

Pain in the forefoot may have various causes. Ailments are mostly caused by inflammation due to wrong footwear and/or overload. Pain may also be caused by foot deformities due to accidents.

The different kinds of inflammation often affect joints, tendons, muscle strands or the periosteum itself. Faseitis plantaris affects the plantar fascia of the sole.

A hammer toe is the deformation of the toe with a flexing contraction of the end joints of the toe.

Callused skin is caused by pressure or friction which causes minimum inflammation in the skin; in order to protect the cellular layers below, the skin is locally stimulated to thicken the outer epidermis.

The diabetic foot syndrome, colloquially also referred to as "diabetic foot", is a syndrome in connection with diabetes mellitus which mostly occurs in patients with type 2 diabetes.

An arthritic foot is the inflammation protection resulting from inflammation in the joints of the foot or toes.

When suffering from a splayfoot, the bones of the middle foot spread apart.

Deformities of the toe are pathological changes in shape which are either innate or have been developed over the years. Increased mechanical pressure may cause painful calluses and inflammation.

In medical science, Hallux valgus is the x-shaped buckling of the large toe in the base joint. This disease almost always occurs together with a splayfoot.

All **Promed Master-Line** models are super flexible, gently enclose and support the foot and are therefore comfortable to wear.

The multi-layered **COSYFIT** material absorbs the moisture of the foot well & dry quickly after wear, and thus provides for a perfect foot climate.

Particularly suitable for pressuresensitivity of the feet, especially for **diabetics** and all those who are maintaining and healing foot problems and need support.

The development of all **Promed MasterLine** shoes are in cooperation with recognized specialist doctors, biomechanics and Orthopaedic medical schools.

The newly developed Promed **SOFTSTEP**-sole-concept combines safety and comfort to an unprecedented level.

The upper material is based on a network structure and the porous-**Coys- Fit** breathable foam lining offers a special 'air-conditioning'. Particularly suitable for Allergy sufferers and diabetes.

Promed ,washable-Insoles' can easily be removed at any time, and washed at 30 degrees. This will prevent unpleasant odours.

Natural new **sheep's wool** ensures warm and cosy feet and wonderfully soft wearing comfort in the whole shoe.

The upper is made from a perforated **stretch micro suede material** for extra breathability.

The shoes are produced in the EC and undergo quality checks.

This ensures utmost quality. Insoles are the substructure of shoes. They form a permanent, inherently stable construction even without the outsole which therefore can be provided with other features.

The resilient material optically resembling suede allows for a healthy breathable climate in your shoe. It is abrasion-resistant, tear-resistant and yet easy to clean.

Lower cut comfort-shoe therapy stretch-suede combination

- Velcro strips to secure for extra comfort when putting on and taking off
- Visually attractive upper perforated stretch micro-suede for particularly good breathability.
- Central and heel portion in suede for perfect fit
- Lightweight shock absorbing, slip-resistant sole
- Particularly suitable for pressure-sensitive feet
- Sizes: 36 47; Comfortable width G
- Farbe: brown, black

heel areas in micro velour material for a perfect fit

Lightweight - shock absorbing, slip-resistant sole

Theramed D1

Multifunctional with 2-hook fabric fasteners and a closed heel

- Open toe, instep strap and closed heel
- Especially recommended for problems toe and forefoot, inflammation, swelling and hallux
- Comfortable in the warmer season breathable and easy care upper
- Sizes: 36 47; J width
- Color: navy blue

Breathable and lightweight upper

promed

Theramed D3

Multifunctional 2-hook fabric fasteners with open heel

- Three velcro straps for individual adjustment in the forefoot, instep and heel. Heel has open design
- Recommended for pressure sensitivity in heel, but also with inflammation and swelling in the heel and toes
- Climate-friendly model
- Comfortable in the warmer season with breathable upper
- Sizes: 36 47; J width
- Color: navy blue

- Recommended for pressure sensitivity, swollen or with inflammation of the forefoot and / or heel.
- Foot climate-friendly model, especially pleasant in the warmer months, thanks to the breathability of the Cosy-fit upper (three layers)
- Includes heel strap
- Sizes: 36 47; Comfortable width J
- Color: navy blue

including removable heel belt

Breathable Cosy Fit Upper (three layers)

TheraLight 1 Rehabilitation and comfort shoe with ope toe and closed heel

- Breathable AirMesh Upper with EasyDry-foot for prime foot climate
- Velcro closure that opens wide for easy entry
- Pressure-free, perfect fit
- Shock absorbing soft step sole, for indoors and outdoor use
- Suitable for diabetics and allergy sufferers
- Machine washable at 30° C
- Sizes: 36 47; Comfortable width G
- Color: black

Joint relief (</> 80 kg)
For targeted weight-specific pain relief

Excellent for the following symptoms:

- To relieve pains in the spine and joints
- Complaints with the middle foot bones, joints (Metatarsal)
- Foot pad and ankle burning , joint problems (ankle, knee, hip)

Particularly suitable for:

- People in walking and standing occupations
- Painful, burning, too heavily laden joints, tired pressure-sensitive feet

Features:

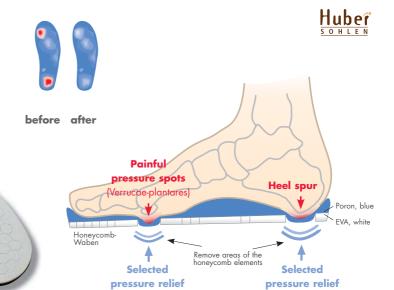

- Moisture-absorbing, quick drying, skin-friendly
- Pollutant-free micro-fibre soft material with pleasant comfortable feel

Sizes (1 pair):

XS/35-37, **S**/38-40, **M**/41-43, **L**/44-46, **XL**/47-49

Art. 551030 Honeycomb-Sole* Specific, selective with removable sections to afford relief

Excellent for the following symptoms:

- Specific area and selective pressure sensitivity
- Corns, heel spurs, and to dampen the shock to Joints

Features: sole consists of a 5 mm laminate combination

- 3 mm top layer: Plastazote highest quality closedcell foam with extremely high return force and durability.
- 2 mm honeycomb layer: EVA (white) porous Foam with honeycomb-punched matrix for targeted pain relief

Feature:

By punching the honeycomb the damping performance is increased by 20 %. Designed for specific, selective pain relief through the removal of the section (replaceable re-usable single honeycomb sections).

Sizes (1 pair): 36 - 47

Art. 552060

Anti-sweat insole*

To prevent sweaty feet and mal odour

Excellent for the following symptoms:

Persistent foot perspiration + mal-odour

Features:

- Special cell foam provides for better circulation of air to dry foot for improved comfort feel
- Breathable, Odour controlling
- Moisture absorbing to 40 % of the sole weight
- Material: cover has 3 layers with BEST DRY HYPERION® basis material is 100 % wool felt

Particularly suitable for:

- People in everyday life, suffering excess foot perspiration, producing with damp, cold feet
- Skin allergy and side-effect free

Sizes (1 pair): 35 - 47

DARCO

MedSurg Pro® (High)

Standard healing shoe after operations – ankle-high

The MedSurg Pro® (High) provides stabilization and off-loading after surgery, and is now for the first time available in two versions. He features highlevel design including a light and breathable upper with a soft lining for maximum comfort. The strap loops on both sides of the shoe enable an easy use of the velcro® straps providing solid protection. Featuring quality classics as squaretoe design, low profile height, wide entry and distal joint spring (metatarsalmetashank) the shoe maintains its proven high standard on a substantial basis.

outer sole features a light roll.

OrthoWedge Off-loading shoe

Compatible with: replaceable insole (p. 147)

PegAssist® Insole for targeted pressure relief

An absolute shock-absorbing effect is achieved with this model through the newly developed design. Dressings can be accommodated much easier in the area of the forefoot due to the quadratic shape. The forefoot is even better protected. The modified closure technology makes it easier to put the shoe on the right as well as the left. The insole is removable for possible reworking and providing additional pressure relief. The weight of this model has been reduced by a few grams.

patent protected

Sizes: (see also the table on p. 158) XS/33,5-37; S/37,5-39,5; M/40-41,5; L/42-44; XL/44,5-47

Sec

OrthoWedge Light Off-loading shoe

Compatible with: replaceable insole (p. 147)

PegAssist Insole

for targeted pressure relief

This model is like the OrthoWedge model, but with a sole wedge made of EVA foam and upper made of breathable mash material. The new sole design reduces the weight by almost half, provides optimal shock absorption and is very easy to work on. It can be ground and milled. The quadratic foot shape also ideally accommodates thicker dressings and protects the toe area better than round shapes. The insole is removable for reworking and additional pressure relief. The symmetrical hook & loop fastener enables it to be put on the left and right. Weight is approx. 350 g.

patent protected

Sizes: (see also the table on p. 158) XS/bis 37; S/37,5-39,5; M/40-41,5; L/42-44; XL/44,5-47

Color: black

Art. 530160 | HiMiNo.: 31.03.03.8001

TwinShoe® Balance shoe

Compatible with

OrthoWedge, OrthoWedge Light, HeelWedge®, WCS

The TwinShoe® is a matching and height adjusting shoe supplementing our classic product line (listed bottom left) and used specifically for clinical care support. Transportation costs for driving to the hospital or to the patient are reduced to a minimum. No more time intensive applying and removing of height adjustments. DARCO TwinShoe® warrants a safe and physiologically correct gait.

Indications:

 prevents the tilting of the pelvis due to higher healing shoe sole

 to ensure a safe and ergonomically correct walking pattern when worn together with healing shoes or off-loading shoes

can be worn on the right and left

Sizes:

XS/33,5-37,0; S/37,5-39,5; M/40,0-41,5; L/42,0-44,0; XL/44,5-47,0

Four-layer insole concept provides ideal adaptability, for instance with lesions due to diabetic foot syndrome. The insoles are prepared for this purpose by cutting out relief zones. As a result, the WCS® can be individually adapted for any patient. Sizes: see p. 160

Toe cap (black) for MedSurg, MedSurg Pro®, OrthoWedge, Twin Shoe®, Relief Dual® (grey)

Toe cap is suitable for various models. It is easy to insert by means of Velcro® fixation, ideal as material for protection against cold and visual protection: such as MedSurg models. Please indicate shoe size with order.

Sizes: (see also the table on p. 144) XS/33,5-37; S/37,5-39,5; M/40-41,5; L/42-44, XL/44,5-47

Color: black

Art. 530350 | HiMiNo.: 23.01.01.0008

TAS® Toe Alignment Splint Toe alignment splint

The TAS® Toe Alignment Splint is an effective and inexpensive way of maintaining correct alignment of the toes during the healingprocess. A thin elastic metatarsal band reduces slippage and soft toe straps hold the toes in the correct position to maintain alignment following surgery to correct hallux valgus, hammer toes or Tailor's bunions. May also be used in the treatment of capsulitis plantar to the m.p. joints caused by mild subluxations of the joint.

Indications:

postoperative after toe alignment, hallux valgus, tailor's bunion, hammer toe

Sizes: universal Adjustable for all foot sizes

Color: White

Replacement straps (white): Art. 530351

Wound care shoe

The high, four-layer insole is individually adapted to any patient by a specialist (e.g. an orthopedic shoemaker). A level of relief is more or less added, depending on the degree of pressure ulcers (malum perforans). In combination with medicinal treatment, surgery and orthopedic care of diabetic ulcers, the WCS® Wound Care Shoe for diabetics offers the opportunity to create a serial diabetic shoe as an individual product and to prevent or delay a possibly impending amputation.

Indications:

- Pressure ulcers on the foot (malum perforans)
- Pressure relief for wound healing
- Postoperative pressure relief after partial amputation (right and left) or available as a pair

Sizes: p. 158 Color: black

Art. 530215 | HiMiNo.: requested WCS® Light Closed wound care shoe

The new VVCS® Light offers the proven fourlayerinsolesystem with individual customization for offloading included in a closed shoe. The ultra soft and breathable upper provides maximum comfort and leaves extra space for bandages. The high counter enables a good heel fit in the shoe and impresses through its unobtrusive look.

sold in pairs

Indications:

- Treatment for diabetic foot syndrome
- Healing shoe for open wounds and mild ulcerations
- Used for postoperative phase after toe and/or forefoot surgery

Sizes:

XS/35-36; S/37-38; S/M/ 39-40; M/41-42; L/43-44; XL/45-46; XXL/47-48

Compatible with: replaceable insole (p. 147)

PegAssist Insole for targeted pressure relief

In the APB® All Purpose Boot the same sole technology is used as in the proven MedSurgTM post surgical shoe, so that its use as a plaster shoe or walking sole in rigid bandages is certainly possible. The new closure technique allows for simple and two sided application. The shoe is completely closed and waterrepellent and keeps dressings and toes warm and dry.

This product is patent protected.

Indications:

- Postoperative use after forefoot operations
- Postoperative use after diabetes operations
- Stabilization dressings on the foot (plastic casts, cast dressings)

Sizes:

XS/33,5-37,0; S/37,5-39,5; M/40,0-41,5; L/42,0-44,0; XL/44,5-47,0 Color: black

Art. 530150 | HiMiNo.: 31.03.03.4025

SlimLine®
Cast boot

Compatible with: replaceable insole (p. 147)

PegAssist Insolefor targeted pressure relief

A shock-absorbing effect is achieved with SlimLine® through the newly developed design. Much more extensive dressings can also be accommodated in the area of forefoot due to the quadratic forefoot structure of the sole. The modified closure technology makes it easier to put the shoe on the right as well as the left, even with more extensive dressings. The insole is removable for possible reworking (additional pressure relief).

This product is patent protected.

Indications:

- For plastic cast dressings and zinc paste bandages
- Shock-absorbing effect

Sizes:

XS/33,5-37,0; S/37,5-39,5; M/40,0-41,5; L/42,0-44,0; XL/44,5-47,0 Color: black

Color: black

Art. 551050 Die Puzzle Insole® Modular insole

The Puzzle Insole® enables plantar pressure relief by simply replacing modules. Both EVA foam soles differ only through the different degrees of shore stiffness. The three replaceable modules (small tow module, big toe module and middle module) can be exchanged individually for different indications. The modular insole for planter pressure redistribution has been developed for plantar pressure redistribution, especially after forefoot and metatarsal operations.

Suitable for the following products: MedSurg, MedSurg Pro®, MedSurg Dual® Wearable on the right and left

Sizes:

Women: S /34-36.5; M /37-38,5; L/39-41

Men: S/38-41; M/41,5-43; L/43,4-45; XL/45,5-47

Color: black-blue (1 set = 1 pair)

Targeted pressure relief

The modular insole has been developed for plantar pressure redistribution and is especially used after forefoot and metatarsal operations.

Small toe module (narrow)

- > Tailor's bunion (Digitus Superductus)
- > Jones fracture
 (Puzzle module extends to Lisfranc joint line)

Large toe module (wide)

- > Arthrodesis: metatarsophalangeal joint and base joint of the large toe
- > Austin. Scarf and Akin osteotomy
- > Closing and opening wedge
- > Crescentic osteotomy
- > Lapidus arthrodesis (TMT1 arthrodesis)
- > Youngswick osteotomy (Puzzle module extends to Cuneiform I)

Middle module

- > Weil and/or Helal osteotomy I IV
- > Morton's neuroma
- > Hammer toe correction
- > PIP arthrodesis
- > Metatarsal fractures II IV
- > Shortening osteotomy of metatarsals II IV (Puzzle module extends to the proximal end of metatarsals II – IV)

MedSurg Insole Measurement in neutral status with other MedSurg sole Puzzle Insole® without blue module More pressure in the heel area through the wedge shape of the Puzzle Insole®. Puzzle Insole® with blue middle module The selective pressure relief of 45 %

The selective pressure relief of 45 % in the metatarsal area II and III is achieved by replacing the middle module (shore hardness 30/black) through the module with lesser shore hardness (09/blue).

1800 g/m2

For Post-OP-Shoes + FXPro Walker

— Art. 551020 + size (see also the table on p. 144): Sizes: XS/33,5-37; S/37,5-39,5 M /40-41,5; L/42-44; XL /44,5-47

Color: blue/beige/black (1 Set = 1 pair)

Art. 530212 Relief Contour Insole® Cushion insole

The relief contour insole is a long soft-cushioning insole. The contours are adjusted to the foot anatomy thus allowing for optimal pressure distribution. The special sole design results in a plane surface loading of up to 90%. The self-supporting polyurethane material (PU) absorbs pressure peaks. Due to the negative heel, the forefoot is additionally relieved. If required, the grindable PU material allows for the individual, patient-specific adjustment of the relief contour insole.

For MedSurg, MedSurg Pro®

Women: WS (34-36,5), WM (37-38,5), WL (39-41) Men: MS (39-41), MM (41,5-43), ML (43,5-45), MXL (45,5-47)

Color: blue

Right and left version available.

SlimLine® Pediatric Pediatric cast boot

Children's cast in particular is often subject to intensive use. The SlimLine® Pediatric Cast Boot offers specific protection of the cast against dirt and rapid fading. All features and characteristics of the standard model for adults are included in this product as well.

The little patient can thus walk easier without crutches and find his or her way around at home, in the kindergarten or in the school.

Wearable on the right and left

Sizes:

S/till 21; M/22-26; L/27-32

AirTraveler Walker Stabilising orthosis

The AirTraveler Walker is an economical, pneumatic walker. In comparison with the FXPro Walker, the AirTraveler Walker ensures more compression with the circumferential air bladders. Posterior flow restrictor channels forward the air for the greatest immobilizing effect. Air cushion for addition compression during stabilization of the ankle joint!

right and left fit

Indications:

for ruptures and ankle injuries

Sizes:

XS/till 36; S/37-38; M/39-41; L/42-44; XL/45-46

Color: black with blue inside shoe

Art. 530220 | HiMiNo.: requested

FXPro Walker Stabilising orthosis

Compatible with: replaceable insole (p. 147)

PegAssist Insole

for targeted pressure relief

The FXPro Walker is built around an ultra lowprofile sole that provides the smoothest possible transition from heel to toe for nor mal ambulation without stressing the foot and ankle. Spatula stirrups conform to the calf to reduce chafing and the vented liner ensures that your patients stay cooler and dryer. Circular velcro® straps warrants best fit in the leg and are individual adjustable. The rocker sole warrants a physiological correct gait.

Indications:

For avulsions of the ankle joint and ligament ruptures

right and left fit

Night Splint® Splinting system

The Night Splint® is designed to alleviate heel pain associated with plantar fasciitis and achilles tendonitis. Nonslip tread on the sole. A large supporting surface cares for enough space and optimal comfort. Two $\frac{1}{2}$ inch EVA insoles are available to further the dorsiflex position of the foot.

Wearable on the right and left

Indications:

- For tendon shortening, heel inflammations and Achilles tendon injuries
- For shortening of the plantar fascia
- Tendinitis in the heel area
- For drop foot prophylaxis, stabilization

Sizes:

S/35-36; M/37-39; L/40-43; XL/44-49 Color: black

DARCO

Heelift® Smooth

The HEELIFT® SMOOTH has been especially developed for patients with sensitive skin. An edema formation is counteracted as a result. This version is recommendable for diabetes patients. The cushion is washable at 60° C. It is recommended to use the supplied laundry bag in order to preserve dimensional stability.

This product is patent protected.

Indications:

For prevention and healing of open wounds due to diabetic foot and pressure sores

Sizes:

S (small), M (medium), L (large) Sizes according to calf circumference (see p. 158)

Color: skin-colored

Art. 530320 | HiMiNo.: 11.11.05.0002 Heelift® Standard Suspension boot

With the Heelift® Standard free heel positioning you achieve effective pressure relief in the heel area, especially with recumbent patients. Better air circulation emerges through the special foam design. The applied naps ensure a pleasant cooling effect. The cushion is washable at 60° C. It is recommended to use the supplied laundry bag in order to preserve dimensional stability.

This product is patent protected.

Indications:

For prevention and healing of open wounds due to diabetic foot and pressure sores

Sizes:

S (small), M (medium), L (large) Sizes according to calf circumference (see p. 158)

Color: skin-colored

DARCO

Heelift® Glide (Standard + Smooth) Suspension boot

Material: Smooth

Material: Standard

Effective pressure relief in the heel area as well as the prevention of heel ulcers is achieved with the Heeliff® Glide free heel positioning. A soft, smooth fabric cover enables the leg to "glide" from one side to the other so that it does not get caught on the bedsheet or cover. An additional forefoot strap secures the foot and helps to support the forefoot.

Can be placed on the right and left Sizes according to calf circumference (see p. 158)

Indications:

- For prevention and healing of pressure ulcers on the heel as well as with diabetic foot syndrome and pressure sores
- For diabetes with neurological sensory deficits
- For prolonged immobility or coma

Sizes:

Standard: S (small), M (medium), Smooth: S (small), M (medium), L (large)

Color: red

Heelift® AFO Standard: Art. 530326 | HiMiNr.(Standard): 11.11.05.0020 | Heelift® AFO Smooth: Art. 530316 | HiMiNr.(Smooth): 11.11.05.0020

Heelift® AFO (Standard + Smooth) Suspension boot

Suitable for wheelchair users

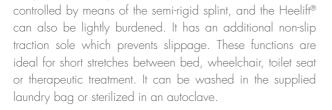

Indications:

- For prevention and healing of open wounds due to diabetic foot and pressure sores
- Gentle control of foot position, enables short distances by foot, 2 surface types

Can be placed on the right and left

Sizes: universal; Color: blue

The Heelift® AFO (Ankle Foot Orthosis) enables a specific

adaptation. The position and movement of the foot is

Elbowlift® Elbowprotection

The Elbowlift® Suspension Pad protects the sensitive olecranon and olecranon bursa from friction burns and contusions by elevatingand cushioning the elbow in smooth foam. Elbowlift® prevents pressure ulcers, pressure sores and other skin injuries. Smooth, low friction backing improves patient movement. Center hole allows for patient best comfort.

right and left fit

Indications:

- For prevention and pressure relief
- Prevention of pressure sores, wound, friction or bruise on elbow

Size: universal Color: beige

Art. 530270 | HiMiNo.: 23.03.01.0009

BodyArmor® Night Splint Splinting System

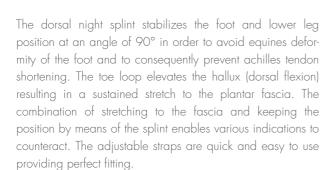

DARCO

Indications:

- Shortening plantar fascia, heel spur
- Achilles tendon inflammations and debilities
- Metatarsalgia
- Drop foot positions and ankle contractures

right and left fit

Size: universal Color: white / blue

DARCO

Toe Plate Toe plate

Prevents an equinus position for the foot and thus also shortening of the Achilles tendon by positioning the foot at 90° to the lower leg. Relieves the plantar fascia (windlass mechanism).

Properties

- Adjustable hook and loop bands
- Quick and easy to put on
- Comfortable fit
- Can be worn on the left and right feet

Indications

- Shortening the plantar fascia
- Enthesopathy of the calcaneus
- Fasciitis Plantaris
- Inflammation and weakness of the Achilles tendon
- Metatarsalaia
- Equinus positions and ankle joint contractures

Can be worn on the left and right feet

Size: universal; Colour: white/blue

Art. 530260 Web Ankle Brace Ankle Bandage

The Web Ankle Brace is a true convertible ankle brace. The bungee closure provides superior compression and allows for adjustments on the run. Removable medial and lateral stays are rigid enough to provide controlled restriction of inversion / eversion. Durable ballistic nylon shell is breathable and conforms to the foot for a comfortable fit. The brace is constructed of a durable vinyl shell – easy to get in and thin enough to wear with athletic shoes or casual dress shoes.

right and left fit

Indications:

- Sports bandage for sports & casual shoes
- For preventive care and as a supporting measure with ankle injuries

Sizes:

XS/36-38,5; S/39-41; M/42-45; L/45,5-47,5; XL/48-50

Color: black

DARCO

Body Armor® Embrace Ankle brace

Available in left and right version

Indications:

- For prevention in the active sports area
- In acute injury phases as well as in rehabilitation phases

Sizes:

S/35-39; M/40-44; L/45-49; please indicate left/right

Color: black / gray

The Body Armor® Embrace is an ankle joint orthosis which is applied during the acute phase of injury as well as during the process of rehabilitation. The lower part of the insole (softpad) is mainly intended for padding the injured ankle and may be cut off at the marked segments after the ankle has healed. Two velcro® fasteners warrant a smooth and easy but firm position of the foot. The talus shift strap helps to prevent talar shift.

Art. 532301 | HiMi no.: 05.02.01.0074 BodyArmor® Ankle Flex Ankle support

Stabilisation and protection of the ankle joint and increase to the blood flow thanks to silicone pads integrated into both sides.

Properties

- Support applied to the plantar
- Mesh zones with differing solidity
- Integrated silicone pads

Indications:

- Upper/lower ankle joint arthritis
- Rheumatoid conditions

DARCO

- Prophylactic everyday use for ligament weakness
- Articular effusions and swelling with joint disease or arthritis
- Feeling of instability

Sizes/heel circumference:

XS/up to 19.0 cm; S/19.0 - 21.0 cm; M/21.0 - 23.0 cm L/23.0 - 25.0 cm; XL/25.0 - 27.0 cm

Can be worn on the left and right feet

Colours: Blue/grey

TASO Function Control Hallux valgus corrective guide sock

Taping socks work through tension and not, like most aids, through pressure. Misalignment is also corrected while walking.

Properties

- Special sock with guide for correction of the hallux valgus
- Wearing time is therapy time: 8 hours of wearing time = 8 hours of therapy!
- Hygienic and easy to use
- No skin stimulation and/or irritation as with taping
- Latex-free

Indications

- Can be used post-operatively after a hallux valgus operation to guarantee the operative result or conservatively
- Conservative for applying a pre-tensioned tape to a hallux valgus

1 pair (1 sock with guide + 1 accompanying sock)

Sizes:

2.5 – 3; 4 – 5; 6 – 7; 7.5 – 8; 9 – 9.5; 10.5 – 11 Colour: black

Titanium Bits / Full Carbide-bits

for extrem demands and lona life

These high quality bits from titanium-carbit-alloy heats up less fast and are more pleasant therefore in application for your customers.

Art. 198551

Carbide titanium milling cutter, barrel, short shaft *

dulling the tips, shortening of artificial nails, for removal of gel and acrylic, extrem durable. Rotational speed: up to 25.000 rpm.

Art. 198551/L

Carbide titanium milling cutter, barrel, long shaft *

dulling the tips, shortening of artificial nails, for removal of gel and acrylic, extrem durable. Rotational speed: up to 25.000 rpm.

Art. 198556

Carbide titanium milling cutter, rounded barral *

tip blending to the natural nail, dulling the tips, shortening of artificial nails, you can file the nails thinner on the hem at the nail, for removal of gel and acrylic, extrem durable. Rotational speed: up to 25.000 rpm.

Art. 198557

Full Carbide-Bit barrel, cross cut *

special grinder for both running directions, fast removal of the modeling (gel and acrylic), special coating avoid heat development, very fine structure on the nails image, extrem durable. Rotational speed: up to 25.000 rpm.

Hard alloy grinders

very durable material

Carbide bits are especially well suited to allowing quick and effective work on artificial nails, and should not be used on natural nails. Typical applications: tip blending, filing down surfaces, filing the underside of the nails, shortening, nail gems.

Hard alloy grinders, lilac series, Spiral-cut - fine

Art. 198435

Hard alloy bit, long cone *

Facilitates a multi-purpose application area: Cleaning underside of the nails on nail smile line. Leftovers of gel or acrylic are removed and finishing touch is done. Rotational speed: up to 40.000 rpm.

Art. 198425

Hard alloy bit, narrow cone *

Is particularly efficient by s.g. Lifting. Finishing touch and quick removal of gel or acrylic is possible, even in the nail fold. Rotational speed: up to 40.000 rpm.

Art. 198445

Hard alloy bit, large cone *

Is an absolute ALL-Rounder in its field. The unique cone-shape offers a risk-free removal of gel and acrylic (even 3-phase gel) without generating heat. It also leaves behind an optimal base to work further on the nail modeling. An extremely durable material. Rotational speed: up to 40.000 rpm.

^{*}autoclave (bit sterilisation by a temperature of 121-134° C and a pressure of ca. 2 bar)

Note: All promed abrasive products have a standard shaft dental diameter of 2.332 to 2.350 mm.

Hard alloy grinders, blue series, Cross cut - rough

Art. 198410

Hard alloy grinder, round *

Particularly suitable to plunge stones in the artificial nail. Rotational speed: up to 40.000 rpm.

Art. 198420

Hard alloy grinder, cone *

It brings acrylic and (get-up) gel in shape and files very nicely. Its shape fits wonderfully to the shape of the nail and enables a higher workmanship. No heat generation. Rotational speed: up to 20.000 rpm.

Art. 198430

Hard alloy grinder, small cone *

Bring acrylic and (get-up) gel in shape. Its size is particularly ideal for finishing. Rotational speed: up to 30.000 rpm.

Art. 198450

Hard alloy grinder, barrel *

Very quick and rough removal of finger nails (acrylic and gel). Very low heat generation. Rotational speed: up to 20.000 rpm.

Hard alloy grinders, red series, Cross cut - medium

Art. 198422

Hard alloy grinder, cone *

Optimum removal of any kind of gels - especially suitable for a refill.

The conical shape is suitable for finishing the nail modeling for e.g. to bring into the shape. Rotational speed: up to 30.000 rpm.

Art. 198442

Hard alloy grinder, bigfootball *

Thanks to its shape, the small pointed cone is ideal for precise ablation of gel and acrylic also to the delicate points just before the nail fold. Rotational speed: up to 25.000 rpm.

Art. 198443

Hard alloy grinder, small football *

Thanks to its shape, the small pointed cone is ideal for precise ablation of gel and acrylic also to the delicate points just before the nail fold. Rotational speed: up to 30.000 rpm.

Art. 198452

Hard alloy grinder, rounded barrel *

The rounded cylinder shape provides a safe and superficial removal of gel and acrylic on the entire nail plate without generating heat. Rotational speed: up to 20.000 rpm.

Hard alloy grinders, yellow series, Cross cut - extra fine

Art. 198434

Hard alloy grinder, long *

Its fine surface texture (cross-cut) cleans perfectly on the lower side of the nail. Removal of leftovers of acrylic or gel, final touch of the work. Rotational speed: up to 40.000 rpm.

Art. 198421

Hard alloy grinder, cone *

Reworking on nail modeling and removing the leftovers. For perfect cleaning of the underside of the nails. Rotational speed: up to 30.000 rpm.

Art. 198461

Hard alloy grinder, flame *

HM-Bit Flame reaches even to the most delicate point due to its shape. To remove adhesive or stuff under the nails made of acrylic and gel. It can also be used to clean the natural nails after re-growth. Rotational speed: up to 40.000 rpm.

HM-Bits, Specials

Art. 198451

Hard alloy grinder, barrel, (fine, rough)*

Combination cut (with fine and rough elements); very durable; fast removal without heat development; very smooth surface structure on the nails. Rotational speed: up to 20.000 rpm.

Art. 198423

Hard alloy grinder, cone, middle *

especially for rotation direction left; fast removal of the modeling (gel and acrylic) very smooth surface structure on the nails; very durable. Rotational speed: up to 20.000 rpm.

Diamond bits

The fine diamond particle coating allows hygienic and speedy skin and nail work. Great durability when used intensively. Smoothes, cleans and removes sticky residues, even in the nail fold. Safe operation in problem areas.

Art. 198585

Diamond milling cutter, rounded barrel, big, rough, hard skin abrader* (especially for wet technique)

For the profesional pedicure. No heat development. For the treatment of skin irregularities and calluses. Can be used on moist and dry skin. Rotational speed: up to 20.000 rpm.

Art. 198586

Diamond milling cutter, rounded barrel, small, rough, hard skin abrader* (especially for wet technique)

For the professional pedicure. No heat development. For the treatment of very thick calluses. Can be used on moist and dry skin. Rotational speed: up to 20.000 rpm.

Art. 198020

Abrasive cone, diamond*

To grind away uneven, grooved nail surfaces. Rotational speed: up to 20.000 rpm.

Art. 198540

Diamond milling cutter, small cone*

For the removal of cuticles, mat the transitions and the natural nail, to treat difficult edges. Rotational speed: up to 20.000 rpm.

Art. 198541

Diamond milling cutter, barrel*

For the treatment of thickened nails and the hard edges of corns. Rotational speed: up to 20.000 rpm.

Art. 198542

Diamond milling cutter, football*

Art. 198543

Diamond milling cutter, small football*

For the grinding away of fungal nails, fungal traces can be removed well with this head. For the removal of cuticles. Rotational speed: up to 20.000 rpm.

 $\textbf{Note:} \ \textbf{All promed abrasive products have a standard shaft dental diameter of 2.332 to 2.350 \ \text{mm.}$

Accessories

Saphir-bits

Sapphire is "softer" than diamond and ideal for treating and caring for natural nails, thickened nails, hard skin and other foot and nail problems.

Art. 198030

Art. 198031

Sapphire milling cutter, pointed

To treat difficult corners and notches and to remove cuticles carefully.

Rotational speed: up to 25.000 rpm.

Sapphire milling cutter, round

Use for clearing nail fold as well as removal of callosities To grind away ingrown nails. Rotational speed: up to 25.000 rpm.

Art. 198034

Sapphire milling cutter, long

To treat the underside of nails, e.g., to remove dirt or the spores from nail fungi. Rotational speed: up to 25.000 rpm.

Art. 190011

Abrasive disc, sapphire

To trim and shape fingernails and toenails. Rotational speed: up to 10.000 rpm.

Art. 190029 middle

Art. 190031 rough

Abrasive cone, sapphire small*

For removal of thickened areas or calluses on the sole of the foot. Can be even used for removal of corns on the toes. Rotational speed: up to 20.000 rpm.

Art. 190026 middle

Art. 190021 rough (not autoclave)

To grind away calluses, thickened skin and thickened areas on the nails. Rotational speed: up to 20.000 rpm.

Art. 190064 middle

Art. 190063 rough

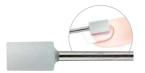

Art. 190067 rough (not autoclave) Hard skin abrader, sapphire*

Especially suitable to remove for stro ng and thick calluses, e.g. on the heels and the balls of the feet. Rotational speed: up to 20.000 rpm.

Stone- and sandpapergrinders

Sanding cylinders are available with various grain sizes. The cylinders are placed on a mandrel, replacing the good old hand file with a well-rounded modern alternative. The stone abraders are perfect suitable for thinning out heavy thick nails.

Art. 198530

Stone abrader, cylindre

To smooth out unattractive nail bodies, for thickened nails. Rotational speed: up to 12.000 rpm.

Art. 198535

Stone abrader, standard

To smooth out and make the body of the nail matte. As preparation for the application of fake nails. Rotational speed: up to 12.000 rpm.

Abrasive mandrel, plastics, autoclave*

Suitable for the placement of abrasive bands to work on the modeling of artificial nails. Rotational speed: up to 25.000 rpm.

Art. 198565/L

Abrasive mandrel, plastics, long, autoclave* (for 4030/S/SX/SX2. 5030S, 5040SX)

Suitable for the placement of abrasive bands to work on the modeling of artificial nails. Rotational speed: up to 25.000 rpm.

Art. 198561 fein

Abrasive band, fine, 100 pcs.

Suitable for grinding down the nail surface and for finely work.

Art. 198562 mittel

Abrasive band, medium, 100 pcs.

Art. 198563 grob

Abrasive band, rough, 100 pcs.

Especially suitable to removal of gel.

Suitable to removal of acrylic.

Art. 198580

Abrasive mandrel, rubber

Abrasive mandrel for placement of sand paper-caps for the processing of calluses.

Art. 198582

Abrasive cap, medium, 50 pcs

Professional abrasive cap for the pedicure. For the removal of heavy and thick calluses, callosities on ball and heel.

^{*}autoclave (bit sterilisation by a temperature of 121-134° C and a pressure of ca. 2 bar)

Note: All promed abrasive products have a standard shaft dental diameter of 2.332 to 2.350 mm.

Polishing Bits

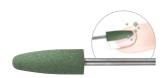

Polishing, removing shine, glossy finishes, matt finishes, smoothing out unevenness in natural nails and much more. The various polishing bits, from silicone buffers and felt bits to soft textile polishers, offer a wide spectrum of nail care applications.

Art. 198110 (Discontinued model)

Nail sealer

For sealing of natural nails after cutting with the abrasive disc. Rotational speed: up to 5.000 rpm.

Art. 190041

Felt cone buffer

Smooths the edges and surfaces of the nails for the polished finish to treatment. Rotational speed: up to 10.000 rpm.

Art. 198130

Silicone polisher, fine, yellow

Use for polishing, creating a shiny surface and matting.

Art. 198131

Silicone polisher, medium, black

Use for polishing, creating a shiny surface and matting

Art. 198132

Silicone polisher, rough, green

Use for polishing, creating a shiny surface and matting. Removal of slight irregularities on natural nails. **Buffer compensation!**

General:

Three different grains sizes for the fine polishing of natural and artificial nails.

Rotational speed: up to 10.000 rpm

(Attention: over this the nails will be discolored with the color of the silicon polisher)

Art. 198570

Soft polisher, leather

For polishing of natural nails. In combination with a polishing paste also for artificial nails. The leather produced by its surface structure a wonderful gloss on the natural nail plate. Rotational speed: up to 10.000 rpm.

Soft polisher, textile

For the glossy polishing of fake and natural nails in combination with a polish paste. Rotational speed: up to 10.000 rpm.

Art. 190086

Polishing brush, goat hair

To clean the nails and the materials. You can remove the dust of the nails on hard reach places, like around the cuticles. Brush is made of soft goat hair. Rotational speed: up to 10.000 rpm.

Promed handpiece MR20

separately available for 2020 (from 2015) with locking mechanism

Art. 212501

Promed handpiece SA1

separately available for Promed 2020 (till 2014) and 2520 with locking mechanism

Art. 203002

Promed handpiece KR1

separately available for Promed 3020 with locking mechanism

Art. 204004

Promed handpiece POM

separately available for Promed 4030 SX, grey

Art. 204002

Promed handpiece POM

separately available for Promed 4030-SX2, white

Accessories foot pedals

Art. 290004

Foot pedal 1

ON/OFF foot pedal with a robust plastic housing (100 \times 70 \times 30 mm),

and rubber feet. Color: black

Connector lead with 5-pin plug, length $150\ \mathrm{cm}.$

Can be used with the models 1030, 2020, 2030 and 3020

Art. 290007

Foot pedal 5

For connecting only to the model: **4030 SX** and **4030-SX2**As a foot pedal 1, with plastic housing. ON/OFF-Foot pedal

Art. 290009

Foot pedal 6

For connecting only to the model: **5040 SX**As a foot pedal 1, with plastic housing.

ON/OFF-Foot Pedal (by continuously operating the pedals)

Art. 290005

Foot pedal 3

For the device **4030**, **4030 S**, **5030**

and **5040**, **5040 SX** black, $197 \times 120 \times 47 \text{ mm}$

Digital foot pedal with incremental function, robust shatter-proof plastic design and rubber feet. Length of connector lead 165 cm

Art. 290008

Foot pedal 4

For connecting only to the model: **4030 SX** and **4030-SX2**As a foot pedal 3, with threshold function, plastic housing
