Bolnišnične vzmetnice Ward mattresses

Narejene iz poliuretanske pene z odprtimi celicami, s prevleko.

Made of open-cell polyurethane foam with cover.

Termo prezračevane vzmetnice Ventilated mattresses

Izdelane iz poliuretanske pene z odprtimi celicami; zaradi posebne obdelave površine, ki je v stiku z uporabnikom, zagotavljajo dobro prezračevanje.

Made of open cell polyurethane foam, these mattresses ensure the very best aeration thanks to the special process used to produce the surfaces in contact with the user.

Kompozitne vzmetnice iz pene Composite foam mattresses

Izdelane iz nosilne podlage in viskoelastičnih pen z visoko gostoto in počasnim vračanjem v prvotno stanje, ki zagotavljajo optimalno porazdelitev teže. KLASIFIKACIJA ISO 04.33.06.006

With a self-supporting base and high-density, slow memory viscoelastic foams to ensure an optimal weight distribution. ISO CLASS 04.33.06.006

Bariatricne vzmetnice Bariatric mattresses

Izdelane iz poliuretanske pene visoke gostote, zagotavljajo nosilnost do 380 kg.

Made of high-density polyurethane foam, for a guaranteed 380 kg nominal load.

Vzmetnice za nosila Stretcher mattresses

Preprosto se prilagodijo vsem vrstam nosil, zagotavljajo odlično porazdelitev teže in udobje.

Easily adaptable to any type of stretcher, these mattresses offer optimal weight distribution and a good level of comfort.

Podložki Levelling systems

Namenjeni so vstavljanju pod napihljiva ležišča in zagotavljajo mehak naslon v primeru, da se ležišče izprazni.

Designed to be inserted under the air systems, they provide a soft support surface in the event of deflation of the device.
